

**voestalpine AG**  
*(a joint stock corporation under the laws of Austria, registered number FN 66209t)*  
**as Issuer**

**EUR 1,000,000,000 programme for the issuance of debt instruments (the “Programme”)**

This document constitutes a base prospectus (the “Prospectus”) of voestalpine AG (the “Company” or the “Issuer”, and, together with its consolidated subsidiaries, “voestalpine”, the “voestalpine Group” or the “Group”) for the purposes of Article 5.4 of Directive 2003/71/EC (the “Prospectus Directive”) in respect of non-equity securities within the meaning of Article 22 no. 6 (4) of Commission Regulation 2004/809/EC of April 29, 2004 as amended (“Non-Equity Securities”).

Under the Programme, the Issuer may from time to time issue senior notes (the “Senior Notes”) and/or hybrid notes (the “Hybrid Notes” and together with the Senior Notes, the “Notes”), denominated in any currency agreed between the Issuer and the relevant Dealer (as specified in the applicable Final Terms, defined below), save that the minimum denomination of the Notes will be EUR 1,000 (or nearly equivalent in another currency at the time of the issue of the Notes). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed EUR 1,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein).

The Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (“CSSF”) of the *Grand-Duchy of Luxembourg* (“Luxembourg”) in its capacity as competent authority (the “Competent Authority”) under the Luxembourg Act on Prospectuses for Securities (*loi relative aux prospectus pour valeurs mobilières*) (the “Luxembourg Act”). In line with the provisions of article 7(7) of the Luxembourg Prospectus Law, the CSSF assumes no responsibility as to the economic and financial soundness of the transactions contemplated under this Prospectus and the quality or solvency of the Issuer.

Application has been made to list the Programme on the official list of the Luxembourg Stock Exchange and application may be made to admit Notes to trading on the regulated market of the Luxembourg Stock Exchange (*Bourse de Luxembourg*). In order to be able to conduct a public offer in the Republic of Austria (“Austria”) and the Federal Republic of Germany (“Germany”) and/or to list the Programme and/or to admit Notes to trading on the Vienna Stock Exchange (*Wiener Börse*), the Issuer applied for a notification of the Prospectus to the competent authority in Austria and Germany pursuant to Article 19 of the Luxembourg Act for a potential offer of such Notes in Austria and Germany and/or a potential listing of the Programme and/or such Notes on the second regulated market (*Geregelter Freiverkehr*) of the Vienna Stock Exchange during a period of 12 months from the date of this Prospectus. However, Notes may also be issued under the Programme which are admitted to trading on a stock exchange other than the Vienna Stock Exchange or the Luxembourg Stock Exchange or which are not admitted to trading on any stock exchange.

Offers to the public in Austria and/or Germany will only be made following the CSSF’s delivery to the competent authority of Austria and/or Germany of, *inter alia*, a certificate of approval pursuant to Article 18 of the Prospectus Directive attesting that this Prospectus was drawn up in accordance with the Prospectus Directive. The Issuer may from time to time arrange for a notification into other jurisdictions under Article 19 of the Luxembourg Act.

**An investment in the Notes carries a high degree of risk. Prospective investors should be aware that, if certain risks, in particular those described in the chapter “Risk Factors” beginning on page 11 materialize, the investors may lose all or a very substantial part of their investment. The Notes should be bought and traded only by persons knowledgeable in investment matters.**

This Prospectus does not constitute an offer to sell, or the solicitation of an offer to buy Notes in any jurisdiction where such offer or solicitation is unlawful. The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”). The Notes may be subject to certain requirements under U.S. tax law. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act (“Regulation S”) and the U.S. Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), and regulations thereunder).

This Prospectus was approved by the CSSF, was filed with the CSSF and will be published in electronic form on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)) and on the website of the Issuer ([www.voestalpine.com](http://www.voestalpine.com)) and will be available free of charge at the registered office of the Issuer.

#### **Rounding adjustments**

As is customary in commercial accounting, some numerical figures (including percentages) in this Prospectus were rounded to the nearest whole number or tenth of a million (euro). As a result, figures shown as totals in some tables may not be the exact arithmetic aggregation of the rounded figures that precede them. Percentages cited in the text, however, were calculated using the actual values rather than the rounded values. Accordingly, in certain cases it is possible that the percentages in the text differ from percentages based on the rounded values.

#### **Market and industry data**

This Prospectus includes information regarding market share, market position and industry data for the Group’s lines of business, which consists of estimates based on data and reports compiled by third parties (such as the World Steel Association) and on the Group’s knowledge of its sales and markets. In many cases there is no readily available external information (whether from trade associations, government bodies or other organizations) to validate market-related analyses and estimates, requiring

the Company to rely on internally developed estimates. The Company believes that such data are useful in helping investors understand the industry in which the Group operates and the Group's position within the industry.

The Company confirms that any information provided by third parties was accurately reproduced. So far as the Company is aware and was able to ascertain from information published by such third parties, no facts were omitted which would render the reproduced information inaccurate or misleading. However, the Company has not independently verified such data. Therefore, neither the Company nor the Arranger nor any Dealer assume any responsibility for the correctness of any market share, market position, industry or other data included in this Prospectus. In addition, while the Company believes its internal research to be reliable, such research was not verified by any independent sources.

## RISK FACTORS

*Prospective investors should carefully review the following risk factors in conjunction with the other information contained in this Prospectus before making an investment in the Notes issued under the Programme. If these risks materialize, individually or together with other risks or circumstances, they may have a material adverse effect on the voestalpine Group's business, results of operations and financial condition. In the Group's opinion, the risks described below are the most significant risks of which it is currently aware, but the list does not purport to be exhaustive, and the risks described are not the only risks to which the Group is exposed. Additional risks not currently known to the Group or that it currently believes are immaterial may also adversely affect its business, results of operations and financial condition. Should any of these risks materialize, the trading price of the Notes could decline, the Company may not be able to fulfill its obligations under the Notes and investors could lose all or a part of their investment. The order in which the individual risks are presented does not provide an indication of the likelihood of their occurrence nor of the severity or significance of the individual risks. Words and expressions defined on the "Terms and Conditions" have the same meaning in this section.*

### Risks relating to the Notes

#### ***Investors bear the risk of their investment decision.***

Potential investors in Notes issued under the Programme must determine the suitability of such investment in the light of their own circumstances, in particular their financial resources, investment expectations, knowledge and experience in financial and business matters and the long-term commitment regarding the invested capital. Each investor should consult a professional adviser regarding the risks associated with the Notes before making an investment decision.

#### ***Market price risk: The price of the Notes may decline.***

The development of the market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates, the lack of or excess demand for the relevant type of Notes, market liquidity and the time remaining to the maturity date. The holders of Notes are therefore exposed to the risk of an unfavorable development of the market prices of their Notes. If a Noteholder decides to hold the Senior Notes until final maturity, the Senior Notes will be redeemed at the amount set out in the relevant Final Terms.

#### ***Credit risk: The Issuer's creditworthiness may deteriorate and the Issuer may become insolvent.***

The Issuer's creditworthiness has a significant effect on the development of the market price of the Notes. If the Issuer's creditworthiness deteriorates, this may result in declining market prices of the issued Notes and, consequently, losses for Noteholders.

In case of insolvency, the Issuer may not be able to fulfill its obligations under the Notes and investors could lose all or a part of their investment. The Notes are not covered by the statutory bank deposit insurance scheme.

#### ***An illiquid market for the Notes or a suspension of trading in the Notes could adversely affect the market price of the Notes.***

Application was made to list the Programme on the official list of the Luxembourg Stock Exchange and Notes issued under the Programme may be admitted to trading on the Vienna Stock Exchange or any other stock exchange. Regardless of whether the Programme and the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, investors might not be able to sell their Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country-specific impediments.

Furthermore, the competent regulatory authority is authorized to suspend or request the relevant

regulated market on which the securities are admitted to trading to suspend such securities from trading due to various reasons (e.g. if, in its opinion, the respective issuer's situation is such that continued trading would be detrimental to the investors' interest). The CSSF as the competent regulatory authority in case certain issues of Notes are admitted to trading on a regulated market of the Luxembourg Stock Exchange is authorized to instruct the exchange to suspend trading in an issuer's securities in connection with measures taken against market manipulation and insider trading. The same would apply to the FMA as the competent regulatory authority in case certain issues of Notes are admitted to trading on a regulated market of Vienna Stock Exchange. The relevant stock exchange must suspend trading in securities which no longer comply with the rules of the regulated market unless such step would likely cause significant damage to investors' interests or the orderly functioning of the market. Any suspension of trading in the Notes could adversely affect the price of the Notes.

***Floating and fixed rate Notes are each exposed to specific market risks.***

A holder of Notes with a floating interest rate is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of floating rate Notes in advance and can adversely affect the price of the Notes and lead to losses for the Noteholders if they sell Notes.

A holder of Notes with a fixed interest rate is, on the other hand, exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of Notes with a fixed interest rate is fixed during the life of such Notes, the current interest rate on the capital market (market interest rate) typically changes on a daily basis. As the market interest rate changes, the price of such Notes changes in the opposite direction. If the market interest rate increases, the price of such Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the price of Notes with a fixed interest rate typically increases, until the yield of such Notes is approximately equal to the market interest rate. Noteholders should be aware that movements of the market interest rate can adversely affect the price of the Notes and can lead to losses for the Noteholders if they sell Notes.

***Hybrid Notes have no final maturity***

Hybrid Notes have no final maturity date and the holders of Hybrid Notes have no right to call for their redemption. Although the Issuer may redeem Hybrid Notes in certain circumstances, there may be limitations on its ability to do so. Thus, holders of Hybrid Notes should be aware that they bear the financial risks of an investment in the Hybrid Notes for an indefinite time.

***The Company may defer payments of interest under the Hybrid Notes.***

The Company will, subject to payment of interest on a Compulsory Interest Payment Date, not have any obligation to pay interest during any Interest Period if it does not elect to do so and any such failure to pay interest shall not constitute a default of the Company or any other breach of obligations under the Hybrid Notes or for any other purpose. Even if the Company does not pay interest on the Hybrid Notes, it is not prohibited from making payments on any instruments ranking senior or pari passu to the Hybrid Notes. Interest deferred will constitute Arrears of Interest. Arrears of Interest will not bear interest. The Company may pay such Arrears of Interest in full or in part at any time upon due notice to the holders of the Hybrid Notes.

***Holders of the Hybrid Notes may not receive payment of Arrears of Interest***

Holders of the Hybrid Notes should be aware that the Company undertakes to make payments of outstanding Arrears of Interest (in whole but not in part) merely on the earlier of: (i) the next Interest Payment Date on which the Issuer elects to pay interest (in whole or in part); (ii) the next Compulsory Interest Payment Date; (iii) the date on which the Hybrid Notes fall due for redemption; (iv) the date on which the Issuer enters into a liquidation and winding up or dissolution (other than for the purposes of or pursuant to an amalgamation, reorganization or restructuring whilst solvent, where the continuing entity assumes substantially all of the assets and obligations of the Company). The holders of the

Hybrid Notes are exposed to the risk that Arrears of Interest will be paid in limited circumstances only.

***The right to receive payments on the Hybrid Notes is subordinated to the rights of all existing and future creditors.***

The obligations of the Issuer under the Hybrid Notes constitute unsecured and subordinated obligations of the Issuer ranking (i) senior to the Issuer's share capital, (ii) pari passu among themselves and Parity Securities, and (iii) junior to all other present or future unsubordinated obligations of the Issuer and subordinated obligations of the Issuer that are expressed to rank senior to the Hybrid Notes, except in each case as otherwise required by mandatory provisions of law. In the event of the liquidation, dissolution, bankruptcy, composition or other proceedings for the avoidance of bankruptcy of the Company, the obligations of the Company under the Hybrid Notes will be subordinated to the claims of all unsubordinated and subordinated creditors of the Company so that in any such event no amounts shall be payable in respect of the Hybrid Notes until the claims of all unsubordinated and subordinated creditors of the Company shall have first been satisfied in full.

Unsubordinated liabilities of the Company may also arise from events that are not reflected on the balance sheet of the Company, including, without limitation, the issuance of guarantees or the incurrence of other contingent liabilities on an unsubordinated basis. Claims made under such guarantees or such other contingent liabilities will become unsubordinated liabilities of the Company that in a winding-up or bankruptcy proceeding of the Company will need to be paid in full before the obligations under the Hybrid Notes may be satisfied.

***Holders of Notes denominated in foreign currencies are exposed to currency risks.***

A holder of a Senior Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Senior Note. A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of a Senior Note denominated in a currency other than euro. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Senior Note expressed in euro falls. In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

***The Company may redeem the Notes under certain circumstances.***

The Senior Notes are subject to redemption at the option of the Issuer (in whole but not in part) in case of a Tax Event in accordance with § 8(4) of the Terms and Conditions. In addition, and subject to the conditions set forth in Condition 8(h), the Senior Notes may be redeemed at the option of the Noteholders in case of the occurrence of a Change of Control (as defined in the Terms and Conditions). Holders of Hybrid Notes should be aware that the Hybrid Notes may be redeemed at the option of the Issuer prior to the First Call Date at the Special Make-Whole Redemption Price or at the First Call Date or on any Floating Interest Date thereafter at their principal amount, plus any remuneration accrued until the redemption date (exclusive). The Hybrid Notes are also subject to redemption (in whole but not in part) (i) at their principal amount, plus any remuneration accrued until the redemption date (exclusive) in case of a Gross up Event and Change of Control, and (ii) at the Early Redemption Amount in case of an Accounting Event, a Tax Event or if the outstanding principal amount of the Hybrid Notes has fallen at any time to 25% or less of the aggregate principal amount of the Hybrid Notes. If Notes are redeemed prior to maturity, a Holder of a Note is exposed to the risk that his investment will have a lower than expected yield due to early redemption.

***Investors may not be able to reinvest their proceeds of the Notes at equal conditions.***

In case of sales before maturity, redemption at maturity or early redemption of the Notes, there is no assurance that investors are able to reinvest the proceeds in comparable Notes with an at least equal yield. The same applies to interest payments.

***Transaction costs and fees may reduce the yield of the Notes.***

Purchasing, depositing and selling Notes can cause commissions, fees and other transaction costs. The cost burden can substantially reduce the yield of the Notes and may, in case of small transaction values, be above-average. Potential investors are advised to inform themselves about such costs before purchasing or selling Notes.

***Investors have to rely on the clearing system's procedures to receive payments under the Notes.***

The Notes are represented by a Global Note, which is kept in custody by or on behalf of the clearing system (OekB, CBF, CBL or Euroclear; each a “**Clearing System**”). The Clearing System will settle purchases and sales of the Notes and maintain records of the beneficial interests in the Global Notes. Noteholders will only be able to trade their beneficial interest through and receive payments via the Clearing System. As a consequence, Noteholders have to rely on the Clearing System’s procedures for transfer, payment and communication with the Issuer to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

***The Issuer and the Dealers may engage in transactions which are not in the interest of Noteholders, or conflicts of interest may arise between the Issuer and the Noteholders for other reasons.***

The interests of the Issuer and the Noteholders are not identical and future transactions of the Issuer directly or indirectly affecting the Notes (e.g. further debt emissions) may have a negative influence on the development of the Notes’ trading price. The Issuer is not obliged to notify the Noteholders of such transactions and therefore advises Noteholders to keep themselves informed on trading price developments.

In addition, certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions and may perform services for the Issuer and its affiliates in the ordinary course of business, which may also affect the Notes.

***voestalpine is not limited under the Programme to issue debt.***

There is no restriction on the amount of debt which the Issuer may issue which ranks equal or senior to the obligations under or in connection with the Notes. Such issuance of further debt may reduce the amount recoverable by the Noteholders upon insolvency or winding-up of the Issuer or may increase the likelihood that the Issuer may or shall defer payments of interest under the Notes.

***Investors may be required to pay taxes and other charges or duties.***

Potential investors of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred to or other jurisdictions and should consult their own independent tax advisers, if they are in any doubt as to their tax position.

***The Issuer discourages investors from financing their purchases of Notes by means of a loan.***

Current payments under the Notes may be below any possible loan interest rates. There is no assurance that the yield or the redemption price of the Notes will be sufficient to pay back loan obligations (including interest). Purchases of Notes financed by loans substantially increase the risk of losses and are generally to be discouraged.

***It may not be lawful for prospective investors to purchase the Notes.***

Neither the Issuer nor the Dealers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser, under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates, or its compliance with any

applicable laws, regulation or regulatory policy. A prospective purchaser may not rely on the Issuer, the Dealers or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes.

***Non-U.S. financial institutions through which payments on the Notes are made may be required to withhold U.S. tax in respect of Notes issued after 1 January 2013 pursuant to the foreign account provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010 – FATCA.***

Non-U.S. financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after December 31, 2016 in respect of (i) any Notes issued or materially modified on or after January 1, 2013 and (ii) any Notes which are treated as equity for U.S. federal tax purposes, whenever issued, pursuant to the foreign account provisions (“FATCA”) of the U.S. Hiring Incentives to Restore Employment Act of 2010. This withholding tax may be triggered if (i) the non-U.S. financial institution through which a payment is made is a foreign financial institution (“FFI”) (as defined in FATCA) which enters into and complies with an agreement with the U.S. Internal Revenue Service to provide certain information on its account holders making the financial institution a “Participating FFI”, (ii) the Participating FFI has a positive passthru percentage (as defined in FATCA), and (iii) (a) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is subject to withholding under FATCA, or (b) any FFI through which payment on such Notes is made is not a Participating FFI or otherwise exempt from FATCA withholding.

The application of FATCA to interest, principal or other amounts paid with respect to the Notes is not clear. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on or with respect to the Notes as a result of FATCA, none of the Issuer, any Guarantor, any paying agent or any other person would, pursuant to the Terms and Conditions of the Notes be required to pay additional amounts as a result of the deduction or withholding of such tax.

As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal or proceeds from the sale of Notes than expected. Holders of the Notes should consult their own tax advisers on how these rules may apply to payments they receive under the Notes.

The application of FATCA to Notes issued or materially modified on or after January 1, 2013 (or whenever issued, in the case of Notes treated as equity for U.S. federal tax purposes) may be addressed in the relevant Final Terms or a supplement to this Base Prospectus, as applicable.

FATCA is particularly complex and its application to Non-U.S. financial institutions, the Notes and Holders is uncertain at this time. Each Holder of Notes should consult its own tax adviser regarding possible impacts in its particular circumstances.

**Risks relating to the Group’s business**

***The Group’s business may be affected by cyclical industry and general economic conditions.***

Demand for most of the Group’s products, as for steel products generally, is cyclical in nature and sensitive to general economic conditions. This means that demand for steel and the prices at which steel can be sold fluctuate considerably. These characteristics are reinforced by the storage cycles of wholesalers, service centers and end users, who typically overstock steel during periods of economic recovery and draw on these stocks during periods of economic decline, thus accelerating reductions in demand. The Group may be significantly affected by changes associated with the steel cycle.

Generally, weak global economic conditions, an economic downturn or a recession or the failure of one or more market areas or industries important to the voestalpine Group, such as the automotive industry, to recover following such events, result in a reduction of the Group’s sales volume or margins and therefore, could have a material adverse effect on the Group’s financial condition and results of operations.

In addition, the Group may incur unexpected costs and/or expenses as a result of a sustained economic downturn, such as in connection with the reorganization of production facilities or personnel.

Serious economic downturns also result in tighter credit markets and declining equity markets. These developments adversely affect the availability, terms and cost of capital. It may become difficult or impossible for the Issuer to finance its capital expenditures. Its customers may also have difficulty finding adequate credit to finance purchases, further slowing down sales. Any impairment of the ability of the Issuer or its customers to refinance existing borrowings or obtain new financing could have a material adverse effect on the Group's business, financial condition and results of operations.

***The Group is exposed to the automotive and other industry sectors.***

A significant proportion of the Group's sales are attributable to the construction, automotive, railway, energy and white goods industries. A sustained downturn or a recession in any one of these industries negatively affects the Group's financial position and could affect strategic goals. One substantial market segment of the Group is the automotive sector, not only through the Automotive Division, but also in the Steel, the Special Steel and Profilform Divisions. Although demand and price fluctuations in the automotive cycle tend to be less pronounced than those that affect steel, to the extent that this materializes, the Group's results will be more exposed to this cycle. In addition, the tendency towards consolidation among original equipment manufacturers ("OEMs") and the tendency of OEMs to (re-)insource orders, previously placed to outside suppliers in order to better utilize their own manpower and facilities could weaken voestalpine's position as an automotive supplier and lead to increased dependence on certain automotive customers.

***The Group is dependent on raw materials and energy.***

The voestalpine Group consumes large volumes of raw materials and energies in its operations. Most important amongst these materials are iron ore, coke, coal, scrap and ferro-alloys, the prices of which have increased considerably over the last years. As a result of recent consolidation on the supply side, the market for iron ore is, according to the Company's own estimates, now significantly influenced by a relatively small number of large producers. This has begun to be reflected in generally higher volatility in prices for raw materials. Because of environmental impacts associated with the production of coke, relatively few new coke plants have been built in recent years in Europe.

The land-locked position of the Company's major production sites places it at a relative disadvantage compared to competitors being located near coastal sites, as it increases the costs of raw material transports. The Company may not be able to offset these higher raw materials transportation costs through lower transportation costs of its finished products to its customers.

Many of the raw materials that the Group uses are non-renewable resources. By their nature, several raw materials become gradually depleted. The Company believes that its current suppliers' reserves are sufficient for the medium term. Nevertheless, if and as the Group needs to locate alternative sources for raw materials, it may become exposed to higher raw materials prices.

Further, sustained increases in prices for raw materials and manufactured products that cannot be passed on to voestalpine Group's customers would have a material adverse effect on its business, financial condition and results of operations. In addition, there could be a decrease in demand for the Group's products, as customers wait for lower prices before issuing their purchase orders.

***The Group is exposed to counterparty risks.***

The Group is subject to credit risk of counterparties which become unable to perform contractual obligations vis-à-vis the Group. Such risk may increase due to worsening economic conditions. The Group may particularly be affected, if the Group's major customer's within a particular industry, such as in the automotive industry, were to be adversely affected by a sustained economic downturn. The occurrence of such risk by one major counterparty or by multiple counterparties may have an adverse effect on the Group's business, financial condition or results in the future.

***The Group is exposed to risks in connection with funding.***

The Group's funding for its current businesses and future growth depends in part upon accessing national and international capital markets as well as upon availability of funding by banks and other lenders. The continuing ability of the Group to access such funding sources on favorable economic terms is dependent upon a variety of factors, including factors outside its control. Generally, there can be no assurance that the Group will, on favorable terms, continue to be able to access such funding sources in the future.

***The future success of the Group depends on its ability to attract and to retain highly qualified management and skilled staff.***

The Company believes that its continued success and ability to implement its strategy will depend significantly upon its ability to attract highly skilled management, technical, marketing and support personnel. Competition for such personnel generally is intense. The Company may from time to time experience difficulties in locating candidates with appropriate qualifications. Moreover, the Company must be able to retain such personnel and ensure that they remain abreast of technical developments in the steel production and processing fields. The Company expends considerable effort and financial resources to recruit and train new and existing personnel. Failure to attract and retain qualified personnel could have a material adverse effect on the Group's business, financial condition and results of operations.

***The business of the Group has grown significantly and, therefore, depends on its ability to manage growth.***

The Company's strategy relies to a certain part on its ability to complete strategic acquisitions and to integrate the acquired activities into its operations successfully. The Company is generally contemplating acquisition opportunities, particularly in its steel processing activities. To the extent that the Company is successful in pursuing its acquisition strategy, it expects to incur substantial additional debt, which will negatively affect its gearing ratio and increase its interest expense, potentially limiting its operational and financial flexibility.

Moreover, integrating and consolidating the Group's acquired operations, personnel and information systems following an acquisition requires the dedication of management resources that may distract attention from the day-to-day business of the Company and may disrupt key operating activities, difficulties that may be increased by the necessity of co-ordinating geographically separated organizations. These problems may be exacerbated where a relatively large number of relatively small businesses is acquired. Finally, the benefits of an acquisition may often take considerable time to develop, and the Company cannot guarantee that any acquisition or series of acquisitions will in fact produce the intended benefits.

***The Group operates in highly competitive markets and might be adversely affected.***

The European steel market is highly competitive. Due to high fixed costs related to the steel production, steel producers tend to, and may have to, make full use of the production capacity of their facilities. During periods of economic decline or fluctuations in demand, this may result in a significant oversupply of steel and thus a concurrent decline in steel prices. Currently the European steel market is characterized by such overcapacity mainly in the commodity segment leading to a decline in steel prices.

The highly competitive nature of the European steel market is also due to external factors. These include steel deliveries from Russia to Europe, the increasing consolidation of steel suppliers and customers, the globalization of the steel market and the relocation of steel customers to other European countries or other continents. Russia's accession to the World Trade Organization in summer 2012 may lead to a rising pressure on the Russian manufacturing industry and not all Russian companies may be competitive on a global basis. Additionally, currently existing steel import quotas for Russian steel producers will be abandoned due to Russia's accession to the World Trade Organization. Therefore,

Russian steel producers, which benefit from a favorable cost position due to their backward integration on the raw material side, might increase their steel exports mainly in the commodity segment to Europe in order to react on a diminishing demand in Russia.

Recent consolidation in the European steel sector has led to the creation of a number of very large producers of steel, each with more extensive global operations than the Group. Furthermore, a number of its major competitors are pursuing strategies to limit the dependence on sales of commodity steel products, where competitive pressures are most acute. As a result, there can be no assurance that competition will not adversely affect the Group's business, financial condition or results in the future.

***Economic, political, regulatory and local business risks associated with international sales and operations could adversely affect the Group's business.***

voestalpine operates mainly in the European Union, but also has considerable sales and/or operations in other countries and regions all over the world, in particular Asia, the United States and Brazil. As a result, the Group's future results could be materially adversely affected by a variety of risks associated with international sales and operations, including changes in local political or economic conditions, tax laws or regulatory requirements (including those affecting the use of raw materials, product requirements, environmental or safety and health standards or labor regulations) and state-imposed restrictions on repatriation of profits, whether through tax policies or otherwise, in these countries and regions.

In addition, tariffs and other trade restriction such as sanctions imposed on companies doing business with certain countries (e.g. Iran) by the European Union and/or the United States could have a material adverse effect on the business of Group companies and, therefore, the Group's business, financial condition and results of operations.

***The Group operates complex manufacturing facilities and any manufacturing or business interruptions could harm the Group's business.***

Steel production and processing may be disrupted by a variety of risks and hazards that are beyond the control of the Group, including environmental hazards, industrial accidents, strikes, technical failures, extended interruptions due to fires, explosions, acts of terrorism other accidents and other events causing stoppages, which could lead to shutdowns in operations. While the Group maintains insurance, covering various types of damage to its production facilities and certain business interruptions, such insurance may not fully cover the costs associated with such occurrences. Any damage to the Group's facilities beyond the amounts of coverage available to the Group at any time, or prolonged delay in the operations of the facilities for repairs or for other reasons, could have a material adverse effect on the Group's business, financial condition and results.

In addition, with regard to certain steel-making processes, particularly hot wide strip rolling, the Company operates "single-line" production facilities and thus is particularly vulnerable to the effects of stoppages, including short-term interruptions. To the extent that the Group is unable to shift interrupted operations to another site, such interruptions could have a disproportionately harmful effect on production, reducing the volumes the Group is able to ship and increasing costs.

***The Group is subject to numerous national, local and EU environmental laws and regulations and may be exposed to environmental liabilities as a result of its operations.***

The Group is subject to numerous national, local and EU environmental laws and regulations concerning, amongst other things, waste water discharges and solid and hazardous waste disposal. Due to the type and size of its operations, the Group is continuously involved in numerous administrative proceedings (such as those concerning building permissions, operations licenses and water regulatory issues), which in part concern issues of environmental compliance. In recent years, the Group has implemented numerous measures in order to address environmental issues at its most important sites, in particular Linz and Donawitz. Nonetheless, costs and obligations in connection with environmental matters are inherent in the Group's past, present and future operations. Moreover, future developments

in environmental regulations may require the Group to increase capital expenditure for environmental compliance beyond the levels currently anticipated, or have other unanticipated effects. Accordingly, there can be no assurance that environmental costs and liabilities will not have a material adverse effect on the Group's business, financial condition or results.

Austria is a signatory to the Kyoto Protocol to the United Nations Framework Convention on Climate Change (the "**Kyoto Protocol**"), in the context of which the European Union has agreed to lower emissions of carbon dioxide by 8% in the years 2008 to 2012 in comparison to the year 1990. Within the EU, Austria has agreed to lower its CO<sub>2</sub> emissions by 13%. In order to fulfill the obligations arising out of the Kyoto Protocol, the European Union established an emission trading scheme. In the second period of this emission trading scheme lasting from January 1, 2008 until December 31, 2012, pursuant to the second Austrian National Allocation Plan, the Group is expected to be under allocated by approximately 1.7 million tons of emission certificates, an amount of certificates which the Group has already purchased. For the third period of emission trading from January 1, 2013 until December 31, 2020, legislation of the European Union has been designated to aggravate the former emission trading scheme. Legislative proceedings and implementation on the level of the European Union and the Member States are still in process and depending on the outcome, material adverse effects on the Group's business also in the period after 2012 must be expected.

***Competition law risks.***

In the steel industry's recent past, a series of investigations by competition authorities have been carried out on both a national and an international level. For example, with respect to competition law offences in Germany, proceedings are currently pending before the German competition authorities. As a result from such proceedings voestalpine is likely to become subject to fines and significant damage claims. Also, it can not be excluded that the Group may in the future become involved in competition law investigations, in particular in situations where voestalpine participates in private and public procurement procedures. In such situations there is a risk that competition authorities, competitors or contractors may suspect illegal competition restricting agreements between the participants, and accordingly initiate proceedings. Such proceedings could have a material adverse effect on the reputation, business, financial condition and results of operations of voestalpine.

***The Group is subject to currency-related risks.***

The Group is exposed to currency exchange rate risks, primarily to the exchange rate between the euro and the U.S. dollar. In the 2011/12 fiscal year, the Group's U.S. dollar costs (relating mainly to raw materials) exceeded the Group's U.S. dollar revenues by approximately \$1,555 million. In the past and currently, this risk is hedged to a significant extent. However, due to the high U.S. dollar position any movements of the exchange rates between the Euro and the U.S. dollar have an impact on the Group's results. The exposure to other currency exchange rate risks is much less. Nevertheless, there can be no assurance that fluctuation in exchange rates other than Euro/U.S. dollar will not adversely affect the Company. Increasing disparity between costs and revenue resulting from exchange rate fluctuation could affect the relative prices at which the Group and its competitors sell products in the same market as well as the cost of materials the Group requires for its operations. In addition, fluctuations in currency exchange rates may have a negative impact on demand in major end markets, such as automotive.

***The Group has not been assigned a credit rating.***

Currently, no credit rating exists for voestalpine. Investors will need to make their own assessment of the credit of the Issuer and the other factors which may affect the value of the Notes without the benefit of an independent credit rating. Implied ratings like research publications or analyst reports could create the impression that voestalpine has been assigned a particular rating. This could result in a misinterpretation of potential investors of risks associated with voestalpine or the Notes.

***The Group may be exposed to risks in connection with force majeure.***

Investors should take into consideration that certain risks exist for losses which can not be insured (such as acts of war) or which are not economically sound to be insured (such as losses due to natural disasters, acts of terrorism etc.).

***The Issuer may be subject to increases in operating and other expenses beyond its control.***

The Issuer's operating and other expenses could increase without corresponding increases in turnover due to factors such as increases in the rate of inflation and currency fluctuations, increases in payroll expenses and energy costs, increase in the cost of services provided by third party suppliers or changes in laws, regulation or governmental policies resulting in increased costs for compliance with such laws, regulations or policies. Such increases could have a material adverse effect on the Issuer's financial position and its ability to meet its obligations under financing agreements.

***The Group may be adversely affected in connection with the implementation of economic stimulus packages in certain export markets.***

In order to address the consequences and implications of the current and recent economic situation, governments and international organizations are, inter alia, implementing economic stimulus packages aimed at boosting their respective economies. The Group can not exclude that such measures also result in competitive disadvantages for the Group in certain export markets, which could have a material adverse effect on the Group's business, financial condition and results.

## GENERAL DESCRIPTION OF THE PROGRAMME

### **General**

Under this Programme, the Issuer may from time to time issue Notes to one or more of the Dealer(s) (as defined herein) in any currency agreed between the Issuer and the Dealer(s). The maximum aggregate principal amount of the Notes from time to time outstanding under the Programme will not exceed EUR 1,000,000,000 (or nearly equivalent in another currency). The Issuer may increase the amount of the Programme in accordance with the terms of the programme agreement from time to time.

Notes may be issued on a continuing basis to one or more Dealers. Notes may be distributed by way of public offers or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche (as defined below) will be stated in the Final Terms.

The Notes will be issued in series (each a “**Series**”). Each Series may be issued in tranches (each a “**Tranche**”) being intended to be interchangeable with all other Notes of the same Series issued on the same or different issue dates. Further Notes may be issued as part of existing Series. The specific terms of each Tranche (which will be supplemented, where necessary, with supplemental terms and conditions and, save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be set out in the relevant Final Terms to this Prospectus (the “**Final Terms**”). The Final Terms will be displayed on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)) if the Programme is listed on the official list of the Luxembourg Stock Exchange and the respective Notes are admitted to trading on the regulated market of the Luxembourg Stock Exchange.

### **Issue Procedure**

#### *General*

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the “**Conditions**”). The Conditions will be constituted by the Terms and Conditions of the Senior Notes or the Terms and Conditions of the Hybrid Notes, as the case may be, set forth below (the “**Terms and Conditions**”) as completed, modified, replenished or replaced by the provisions of the Final Terms (the “**Final Terms**”). The Final Terms relating to each Tranche of Notes will specify:

- whether the Conditions are to be Long-Form Conditions or Integrated Conditions (each as described and defined below); and
- whether the Conditions will be in the German language or the English language or the German language and the English language (and, if both, whether the German language version or the English language version is binding).

As to whether Long-Form Conditions or Integrated Conditions will apply, the Issuer anticipates that:

- Long-Form Conditions will generally be used for Notes sold on a non-syndicated basis and which are not publicly offered.
- Integrated Conditions will generally be used for Notes sold and distributed on a syndicated basis. Integrated Conditions will be required where the Notes are to be publicly offered, in whole or in part, or are to be distributed, in whole or in part, to non-professional investors.

As to the binding language of the respective Conditions, the Issuer anticipates that, in general, subject to any stock exchange or legal requirements applicable from time to time, and unless otherwise agreed between the Issuer and the relevant Dealer:

- in the case of Notes sold and distributed on a syndicated basis, German will be the binding language;

and

- in the case of Notes publicly offered, in whole or in part, in Germany or in Austria, or distributed, in whole or in part, to non-professional investors in Germany or Austria, German will be the binding language. If, in the event of such public offer or distribution to non-professional investors, however, English is chosen as the binding language, a German language translation of the Conditions will be available from the principal offices of the Paying Agent as specified in the applicable Final Terms and of the Company.

#### ***Long-Form Conditions***

If the Final Terms specify that Long-Form Conditions are to apply to the Notes, the provisions of the applicable Final Terms and the Terms and Conditions, taken together, shall constitute the Conditions (the “**Long-Form Conditions**”). Such Conditions will be constituted as follows:

- the blanks in the provisions of the Terms and Conditions which are applicable to the Notes will be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the blanks of such provisions;
- the Terms and Conditions will be modified, replenished or replaced by the text of any provisions of the Final Terms modifying, replenishing or replacing, in whole or in part, the provisions of the Terms and Conditions;
- alternative or optional provisions of the Terms and Conditions as to which the corresponding provisions of the Final Terms are not completed or are deleted will be deemed to be deleted from the Terms and Conditions;

and

- all instructions and explanatory notes set out in square brackets in the Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Terms and Conditions.

Where Long-Form Conditions apply, each Global Note representing the Notes of the relevant Series will have the Final Terms and the Terms and Conditions attached.

#### ***Integrated Conditions***

If the Final Terms specify that Integrated Conditions are to apply to the Notes, the Conditions in respect of such Notes will be constituted as follows:

- all of the blanks in all applicable provisions of the Terms and Conditions will be completed according to the information contained in the Final Terms and all non-applicable provisions of the Terms and Conditions (including the instructions and explanatory notes set out in square brackets) will be deleted;

and/or

- the Terms and Conditions will be otherwise modified, replenished or replaced, in whole or in part, according to the information set forth in the Final Terms (the “**Integrated Conditions**”).

Where Integrated Conditions apply, the Integrated Conditions alone will constitute the Conditions. The Integrated Conditions will be attached to each Global Note representing Notes of the relevant Series.

Der auf die Schuldverschreibungen fällige Zinsbetrag (der *Zinsbetrag*) für jede Zinsperiode ergibt sich aus der Multiplikation des Zinssatzes mit dem Vergütungstagequotient (wie nachstehend definiert) und dem Nennbetrag je Schuldverschreibung, wobei der resultierende Betrag auf den nächstliegenden Cent auf- bzw. abgerundet wird, wobei 0,5 oder

**Floating Interest Payment Date** means [**insert Variable Interest Payment Date(s)**] in each year. If any Floating Interest Payment Date would otherwise fall on a day which is not a Business Day, such Floating Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event the Floating Interest Payment Date shall be the immediately preceding Business Day. Each period from and including the Issue Date to but excluding the first Floating Interest Payment Date and thereafter from and including each Floating Interest Payment Date to but excluding the next following Floating Interest Payment Date is a **Floating Interest Period**.

**Referenzbanken** bezeichnet diejenigen Banken, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der Bildschirmseite angezeigt wurde.

If two or more of the selected Reference Banks provide the Calculation Agent with such offered quotations, the Floating Interest Rate for such Floating Interest Period shall be the arithmetic mean of such offered quotations (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 or more being rounded upwards) plus the Margin. If the Floating Interest Rate cannot be determined in accordance with the foregoing provisions, the Floating Interest Rate shall be the offered quotation or the arithmetic mean of the offered quotations on the Screen Page on the last day preceding the Interest Determination Date on which such quotations were offered, plus the Margin.
- (1b) The Calculation Agent shall, on or as soon as practicable after each time at which the Floating Interest Rate is to be determined, determine the Floating Interest Rate and calculate the amount of interest (the **Interest Amount**) payable on the Notes for the relevant Floating Interest Period. The Interest Amount shall be calculated by multiplying the Floating Interest Rate and the Day Count Fraction (as defined below) with the principal amount of each Note and rounding the resulting figure to the nearest cent, with 0.5 or more of a cent being rounded upwards.

(3) *Bekanntmachung und Wirksamwerden der Ersetzung*. Die Ersetzung der Emittentin ist gemäß § 13 bekannt zu machen. (2) *Gerichtsstand*. Für sämtliche Rechtsstreitigkeiten, die aus oder im Zusammenhang mit den Schuldverschreibungen entstehen, ist das für Handelssachen jeweils zuständige Gericht in Wien ausschließlich zuständig. Irrespective hereof, a substitution of the Issuer pursuant to § 14 (1) shall not affect the definition of a Material Subsidiary in accordance with § 8.

(3) *Notice and Effectiveness of Substitution*. Notice of substitution of the Issuer shall be published in accordance with § 13. The substitution shall become effective upon such publication, and the Issuer (and in the event of a repeated application of this § 14, any previous New Issuer) shall be discharged from any and all obligations under or in connection with the Notes. In case of such substitution, the stock exchanges on which the Notes are listed will be notified.

(2) *Place of Jurisdiction*. For all disputes which may arise out or in connection with the Notes, the court competent for commercial matters in Vienna (*Handelsgericht Wien*) shall have exclusive jurisdiction. The submission to the jurisdiction of the courts of Vienna shall not (and shall not be construed so as to) limit the right of any Holder to take proceedings in any other court of competent jurisdiction, nor shall the taking up of proceedings in any one or more jurisdictions preclude the taking up of proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by Austrian law. In particular, the following applies: (i) to the extent Holders qualify as consumers within the meaning of § 1 sub-para 1 of the Austrian Consumer Protection Act (*Konsumentenschutzgesetz*), such Holders can only be sued at their domicile, place of residence or place of employment; and, (ii) in addition, consumers within the meaning of Regulation (EC) 44/2991 of the Council dated 22 December 2000 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters can sue and be sued at their place of residence only.

(a) Floating Interest Payment Date means 31 October, 31 January, 30 April and 31 July in each year. If any Floating Interest Payment Date would otherwise fall on a day which is not a Business Day, such Floating Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event the Floating Interest Payment Date shall be the immediately preceding Business Day. Each period from and including the First Call Date to but excluding the first Floating Interest Payment Date and thereafter from and including each Floating Interest Payment Date to but excluding the next following Floating Interest Payment Date is a Floating Interest Period.

(b) Floating Interest Rate for each Floating Interest Period will be the offered quotation (expressed as a percentage rate per annum) for three-month deposits in euro for a period equal to that Floating Interest Period displayed on the Screen Page (as defined below) as of 11:00 a.m. (Brussels time) on the Interest Determination Date plus the Margin (as defined below), all as determined by the Calculation Agent.

Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 oder mehr aufgerundet wird) dieser Angebotssätze zuzüglich der Marge. Falls der Variable Zinssatz nicht gemäß der oben definierten Bestimmungen ermittelt werden kann, ist der Zinssatz der Angebotssatz bzw. das arithmetische Mittel der Angebotssätze auf der Bildschirmseite an dem letzten Tag vor dem Zinsfestsetzungstag, an dem diese Angebotssätze angezeigt wurden, zuzüglich der Marge.

**Referenzbanken** bezeichnet diejenigen Banken, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der Bildschirmseite angezeigt wurde.

- (c) Die Berechnungsstelle soll zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Variable Zinssatz zu bestimmen ist, den auf die Schuldverschreibungen fälligen Zinsbetrag (der **Zinsbetrag**) für die entsprechende Variable Zinsperiode berechnen. Der Zinsbetrag ergibt sich aus der Multiplikation des Variablen Zinssatzes mit dem Vergütungstagequotient (wie nachstehend definiert) und dem Nennbetrag je Schuldverschreibung, wobei der resultierende Betrag auf den nächstliegenden Cent auf- bzw. abgerundet wird wobei 0,5 oder mehr eines Eurocents aufgerundet werden.

If two or more of the selected Reference Banks provide the Calculation Agent with such offered quotations, the Floating Interest Rate for such Floating Interest Period shall be the arithmetic mean of such offered quotations (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 or more being rounded upwards) plus the Margin. If the Floating Interest Rate cannot be determined in accordance with the foregoing provisions, the Floating Interest Rate shall be the offered quotation or the arithmetic mean of the offered quotations on the Screen Page on the last day preceding the Interest Determination Date on which such quotations were offered, plus the Margin.

**Reference Banks** means those banks whose offered rates were used to determine such quotation when such quotation last appeared on the Screen Page.

(c) The Calculation Agent shall, on or as soon as practicable after each time at which the Floating Interest Rate is to be determined, determine the Floating Interest Rate and calculate the amount of interest (the **Interest Amount**) payable on the Notes for the relevant Floating Interest Period. (4) *Definitionen.*

Der **Vorzeitige Rückzahlungsbetrag** je Schuldverschreibung (i) entspricht im Falle eines Gross up Ereignisses, dem Nennbetrag der Schuldverschreibungen zuzüglich den aufgelaufenen Zinsen bis zum Datum der Rückzahlung oder (ii) wird im Falle eines Steuerereignisses oder Rechnungslegungsergebnisses berechnet als das Höhere von (x) dem Nennbetrag der Schuldverschreibungen und (y) dem Abgezinsten Marktpreis der Schuldverschreibungen, in jedem Fall zuzüglich der aufgelaufenen Zinsen zum, aber nicht inklusive dem Rückzahlungsdatum.

Der **Abgezinste Marktpreis** wird von der Berechnungsstelle errechnet und entspricht der Summe der auf den in der Kündigungserklärung festgelegten Rückzahlungstag Abgezinsten Werte (wie nachstehend definiert) (i) des Nennbetrages der Schuldverschreibungen und (ii) der verbleibenden vorgesehenen Zinszahlungen je Schuldverschreibung bis zum Ersten Rückzahlungstermin (ausschließlich).

Die Berechnungsstelle ermittelt die **Abgezinsten Werte**, indem sie am 4. Geschäftstag vor dem Rückzahlungstag den Nennbetrag der Schuldverschreibungen und die verbleibenden vorgesehenen Zinszahlungen bis zum Ersten Rückzahlungstermin auf jährlicher Basis unter Zugrundelegung eines Jahres mit 365 bzw. 366 Tagen und der Zahl der tatsächlich in dem Jahr verstrichenen Tage und der Angepassten Vergleichbaren Rendite (wie nachstehend definiert) zuzüglich **[Angepasste Vergleichbare Rendite Spread einfügen]**% abzinst.

Die **Angepasste Vergleichbare Rendite** ist die Rendite, die am Tag der Rückzahlung für eine Referenz Staatsanleihe mit Euro-Zinssatz zu zahlen wäre, die die Berechnungsstelle unter Berücksichtigung einer vergleichbaren Laufzeit mit der Restlaufzeit der Schuldverschreibungen bis zum Ersten Rückzahlungstermin bestimmt hat und welches zum Zeitpunkt der Bestimmung gemäß

(4) *Definitions.*

The **Early Redemption Amount** will per Note (i) upon the occurrence of a Gross up Event, equal the principal amount of the Notes, plus accrued interest until the date of redemption or (ii) upon the occurrence of a Tax Event or an Accounting Event, be calculated as the greater of (x) the principal amount of the Notes and (y) the Make-Whole Redemption Price of the Notes, in each case plus accrued interest to but not including the redemption date.

The **Make-Whole Redemption Price** will be calculated by the Calculation Agent, and will equal the sum of the Present Values (as defined below), as at the date of redemption as published in the call notice, of (i) the principal amount of the Notes and (ii) of any remaining scheduled payments of interest on such Bond to but excluding the First Call Date.

The **Present Values** will be calculated by the Calculation Agent on the fourth Business Day prior to the redemption date by discounting the principal amount of the Notes and the remaining interest payments to the First Call Date on an annual basis, assuming a 365-day year or a 366-day year, as the case may be, and the actual number of days elapsed in such year, and using the Adjusted Comparable Yield plus **[insert Adjusted Comparable Yield Spread]%**.

The **Adjusted Comparable Yield** will be the yield at the date of redemption on the Euro government benchmark security selected by the Calculation Agent as having a maturity comparable to the remaining term of the Notes to the First Call Date that could be utilised, at the time of selection and in accordance with market practice, in pricing new issues of corporate debt securities of comparable

Der Emittentin steht ein Kündigungsrecht gemäß diesem § 5(5)(a) nicht zu, soweit Zinsrückstände ausstehen. Die Emittentin hat den Anleihegläubigern den Eintritt eines Kontrollwechsels unverzüglich gemäß § 13 anzugeben.

- (e) die Neue Anleiheschuldnerin in der Lage ist, sämtliche zur Erfüllung der aufgrund der Schuldverschreibungen bestehenden Zahlungsverpflichtungen erforderlichen Beträge in Euro an das Clearingsystem zu zahlen, und zwar ohne Abzug oder Einbehalt von Steuern oder sonstigen Abgaben jedweder Art, die von dem Land (oder den Ländern), in dem (in denen) die Neue Anleiheschuldnerin ihren Sitz oder Steuersitz hat, auferlegt, erhoben oder eingezogen werden; und

**§ 14**  
**Substitution of the Issues**

- (1) *Substitution.* The Issuer may at any time, without the consent of the Holders, replace the Issuer with a company which is directly or indirectly controlled by the Issuer, as new issuer (the New Issuer) in respect of all obligations arising under or in connection with the Notes, with the effect of releasing the Issuer of all such obligations, if:

- (a) the Issuer is not in default of any payment due under the Notes;
- (b) the New Issuer assumes any and all obligations of the Issuer arising under or in connection with the Notes;
- (c) the New Issuer has obtained all authorizations and approvals necessary for the substitution and the fulfilment of the obligations arising under or in connection with the Notes;
- (d) the Issuer unconditionally and irrevocably guarantees for the payment of all amounts due by the New Issuer under or in connection with the Notes (including any additional amounts payable for tax reasons);
- (e) the New Issuer is in the position to pay to the Clearing System in euro all amounts required for the performance of the payment obligations existing in relation to the Notes without deducting or withholding any taxes or other duties of whatever nature imposed, levied or deducted by the country (or countries) in which the New Issuer has its domicile or tax residence; and

- (f) die Neue Anleiheschuldnerin sich verpflichtet hat, (f) die Anleihegläubiger hinsichtlich solcher Steuern, Abgaben oder behördlicher Gebühren freizustellen, die den Anleihegläubigern bezüglich der Ersetzung auferlegt werden.
- (2) *Bezugnahmen*. Im Fall einer Schuldnerersetzung nach Maßgabe von § 14 (1) gilt jede Bezugnahme in diesen Anleihebedingungen auf die Emittentin als eine solche auf die Neue Anleiheschuldnerin und, vorbehaltlich des § 16(3), jede Bezugnahme auf die Republik Österreich als eine solche auf den Staat, in welchem die Neue Anleiheschuldnerin steuerlich ansässig ist. Unabhängig davon hat eine Schuldnerersetzung nach Maßgabe von § 14 (1) keine Auswirkungen auf die Definition der Konzerngesellschaft in § 5 (7).
- (3) *Bekanntmachung und Wirksamwerden der Ersetzung*. Die Ersetzung der Emittentin ist gemäß § 13 bekannt zu machen. Mit der Bekanntmachung der Ersetzung wird die Ersetzung wirksam und die Emittentin (und im Falle einer wiederholten Anwendung dieses § 14 jede frühere Neue Anleiheschuldnerin) von ihren sämtlichen Verpflichtungen aus oder im Zusammenhang mit den Schuldverschreibungen frei. Im Falle einer solchen Ersetzung werden die Wertpapierbörsen informiert, an denen die Schuldverschreibungen notiert sind.
- (3) *Notice and Effectiveness of Substitution*. Notice of substitution of the Issuer shall be published in accordance with § 13. The substitution shall become effective upon such publication, and the Issuer (and in the event of a repeated application of this § 14, any previous New Issuer) shall be discharged from any and all obligations under or in connection with the Notes. In case of such substitution, the stock exchanges on which the Notes are listed will be notified.

## § 15 Keine Gesellschafterrechte

Die Schuldverschreibungen vermitteln den Anleihegläubigern keinerlei Gesellschafterrechte in Bezug auf die Emittentin. Insbesondere verbrieften die Schuldverschreibungen keinerlei Berechtigung der Anleihegläubiger auf einen Anteil am Liquidationserlös der Emittentin.

## § 16 Anwendbares Recht und Gerichtsstand

- (1) *Anwendbares Recht*. Die Schuldverschreibungen unterliegen österreichischem Recht.
- (2) *Gerichtsstand*. Für sämtliche Rechtsstreitigkeiten, die aus oder im Zusammenhang mit den Schuldverschreibungen entstehen, ist das für Handelssachen jeweils zuständige Gericht in Wien ausschließlich zuständig. Die Gerichtsstandsvereinbarung beschränkt nicht das Recht eines Anleihegläubigers (und wird auch nicht dahingehend ausgelegt), Verfahren vor einem anderen nach österreichischem Recht gesetzlich zuständigen Gericht anzustrengen. Insbesondere gilt folgendes: (i) sofern es sich bei Anleihegläubiger um einen Verbraucher im Sinne von § 1 Abs 1 des österreichischen Konsumentenschutzgesetzes handelt, kann dieser nur an seinem Aufenthalts-, Wohn-, oder Beschäftigungsstandort geklagt werden; und
- (1) *Governing law*. The Notes are governed by the laws of the Republic of Austria.
- (2) *Place of Jurisdiction*. For all disputes which may arise out or in connection with the Notes, the court competent for commercial matters in Vienna (*Handelsgericht Wien*) shall have exclusive jurisdiction. The submission to the jurisdiction of the courts of Vienna shall not (and shall not be construed so as to) limit the right of any Holder to take proceedings in any other court of competent jurisdiction, nor shall the taking up of proceedings in any one or more jurisdictions preclude the taking up of proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by Austrian law. In particular, the following applies: (i) to the extent Holders qualify as consumers within the meaning of § 1 sub-para 1 of the Austrian

the New Issuer has agreed to indemnify the Holders against such taxes, duties or governmental charges as may be imposed on the Holders in connection with the substitution.

(2) *References*. In the event of a substitution of the Issuer pursuant to § 14 (1), any reference in these Terms and Conditions to the Issuer shall be a reference to the New Issuer and, subject to § 16(3), any reference to the Republic of Austria shall be a reference to the New Issuer's country of residence for tax purposes. Irrespective hereof, a substitution of the Issuer pursuant to § 14 (1) shall not affect the definition of a Group Entity in accordance with § 5 (7).

*Notice and Effectiveness of Substitution*. Notice of substitution of the Issuer shall be published in accordance with § 13. The substitution shall become effective upon such publication, and the Issuer (and in the event of a repeated application of this § 14, any previous New Issuer) shall be discharged from any and all obligations under or in connection with the Notes. In case of such substitution, the stock exchanges on which the Notes are listed will be notified.

## § 15 No Shareholders' Rights

The Notes do not confer any shareholder's rights with respect to the Issuer to the Holders. In particular, the Holders will not be entitled to share in any liquidation proceeds of the Issuer under the Notes.

## § 16 Governing Law and Jurisdiction

- (1) *Governing law*. The Notes are governed by the laws of the Republic of Austria.
- (2) *Place of Jurisdiction*. For all disputes which may arise out or in connection with the Notes, the court competent for commercial matters in Vienna (*Handelsgericht Wien*) shall have exclusive jurisdiction. The submission to the jurisdiction of the courts of Vienna shall not (and shall not be construed so as to) limit the right of any Holder to take proceedings in any other court of competent jurisdiction, nor shall the taking up of proceedings in any one or more jurisdictions preclude the taking up of proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by Austrian law. In particular, the following applies: (i) to the extent Holders qualify as consumers within the meaning of § 1 sub-para 1 of the Austrian

(ii) Verbraucher im Sinne der Verordnung (EG) Nr. 44/2001 des Rates vom 22. Dezember 2000 über die gerichtliche Zuständigkeit und die Anerkennung und Vollstreckung von Entscheidungen in Zivil- und Handelssachen können zusätzlich an ihrem Wohnsitz klagen und nur an ihrem Wohnsitz geklagt werden. Ebenso wenig schließt die Einleitung von Verfahren an einem oder mehreren Gerichtsständen die Einleitung von Verfahren an einem anderen Gerichtsstand aus (gleichgültig, ob diese gleichzeitig geführt werden oder nicht), falls und soweit dies rechtlich zulässig ist.

- (3) *Erfüllungsort*. Erfüllungsort ist Wien, Republik Österreich.
- (4) *Teilnichtigkeit*. Sollten irgendwelche Bestimmungen dieser Bedingungen ganz oder teilweise rechtsunwirksam sein oder werden, so bleiben die übrigen Bestimmungen dieser Bedingungen in Kraft. Unwirksame Bestimmungen sind dem Sinn und Zweck dieser Bedingungen entsprechend durch wirksame Bestimmungen zu ersetzen, die in ihren wirtschaftlichen Auswirkungen denjenigen der unwirksamen Bestimmungen so nahe kommen wie rechtlich möglich.
- (3) *Place of Performance*. Place of performance shall be Vienna, Republic of Austria.
- (4) *Partial Invalidity*. If a provision in these Terms and Conditions becomes legally invalid, in whole or in part, the remaining provisions shall remain in effect. Invalid provisions shall pursuant to the purpose of these Terms and Conditions be replaced by valid provisions that from an economic point of view come as close as legally possible to the invalid provision.

## BUSINESS OF THE VOESTALPINE GROUP

### Overview

voestalpine is a high-quality manufacturer and distributor of a wide range of steel products, primarily serving customers in the European automotive, construction & building, general manufacturing, the white goods and energy industries and in the railway industry worldwide. The Issuer is the parent company of the Group with operations in the following Divisions (until March 31, 2012): Steel Division, Special Steel Division, Metal Engineering Division (formerly Railway Systems Division), Profilform Division and Automotive Division. Since April 1, 2012 the Profilform Division and the Automotive Division were combined to form a new Division called Metal Forming. As a holding company, voestalpine AG has no business operations of its own, but is responsible for management and support functions for the Group, including overall strategy and planning, investment and finance, budgets, treasury, legal services, mergers and acquisitions and investor and public relations. voestalpine had 46,473 employees as of March 31, 2012.

The Group's management structure combines central planning with operational decentralization. Accordingly, while voestalpine AG's Management Board determines the Group strategy and policy and approves an annual budget and revolving three-year business plan for each Division, implementation is entirely handled at the divisional level, and the Management Board does not take part in the day-to-day operations of the Divisions.

In the fiscal year 2011/12, the Group generated revenues of EUR 12,058.2 million and an EBIT of EUR 704.2 million. As of March 31, 2012, the Group employed 46,473 employees (full time equivalent) worldwide, of which approximately 46% work in its Austrian operations.

### Steel Division

With EUR 4,130.3 million revenues and EUR 226.5 million profit (EBIT) in the fiscal year 2011/12, the Steel Division is the largest Division of the voestalpine Group accounting for 33% of the Group's sales revenue. In the fiscal year 2010/11, the Division's revenues totaled EUR 3,839.3 million and its profit (EBIT) EUR 371.5 million.

Mainly located in Linz, Austria, the Steel Division produces high-quality flat steel products primarily for the European automotive, white-goods, building and energy industries as well as for the Group's Divisions, Profilform and Automotive (now Metal Forming Division).

In addition to its steel making facilities in Linz, Austria, the Division also owns or holds participations in steel service centers at its Linz site and in Italy, Germany, Poland and Romania, which cut and deliver steel products, primarily for customers in the appliance industry, and owns or holds participations in foundries at its Linz site and in Traisen, Austria, and China.

The Company's other steel production facilities on blast furnace basis, at Donawitz, Austria, are dedicated to the production of rails and other long products, and are thus included in the Metal Engineering Division.

### *Raw materials*

The Division's steel-making activities consume significant amounts of iron ore and coal. Its activities also require smaller amounts of various other ferrous and non-ferrous metals, steel scrap for use in the converters and zinc for use in coating steel. The Division partly sources its raw materials internally and has, for instance, its own coking plant to transform coal into coke, in which in the fiscal year 2011/12 it produced approximately 70% of the coke required in its blast furnaces operations, and holds a minority stake in an international scrap trading company, Scholz Austria GmbH, which supplies the majority of the Group's scrap consumption.

## **Products**

The Steel Division produces hot rolled strip (accounting for 17% of total shipments, including shipments to Group companies, in the fiscal year 2011/12), cold rolled strip (19%), surface-coated steel products (including hot dipped galvanized, electrolytically galvanized and organically coated products; 49%) and heavy plate (15%). Furthermore, the Division's foundries produce high-quality steel and modular iron castings for various end-users.

The Division offers mainly higher-grade steel products and only to a minor extent standard grades. Its product range comprises deep drawing and specialty deep drawing grades made of ultra low carbon, vacuum-treated steel grades as well as deep drawing and drawing grades made of aluminium-killed steels. In addition, the Division perceives itself to be an industrial leader in the development of high strength and ultra high strengths steel grades, mainly for the automotive industry.

## **Customers and markets**

### *Geographic distribution of customers*

The Steel Division's customers are primarily based in the European Union, where 87% of total sales were generated in the fiscal year 2011/12. Germany thereby represents the Division's largest single market (29% of total sales), followed by Austria (20%) and Italy (10%).

The Steel Division's clear emphasis on European customers results from its strategic location in the center of Europe's industrial heartland. Generally speaking, the cost of transporting steel gives local suppliers a natural competitive advantage. A significant number of important users of steel have large manufacturing facilities relatively close to the Linz production site—in particular, major automobile and appliance makers based in Germany, Italy and Central Eastern Europe. The Division has thus found in these customers a natural market for its products. In the fiscal year 2011/12, approximately three quarters of the Division's deliveries were to customers located within a 500 kilometer radius of Linz.

### *Customers by industry*

## **Business environment and competitors**

Consolidation in the European steel sector has led to the creation of several large bulk producers of steel, including ArcelorMittal (acting globally), ThyssenKrupp (Germany), Riva (Italy), Tata/Steel Europe (UK/The Netherlands) and US Steel (Slovakia). Other major steel producers in Europe include Salzgitter (Germany), Ruukki (Finland) and SSAB (Sweden).

Steel markets tend to be cyclical and sensitive to general economic conditions. Strong fluctuations in price and demand as well as a tendency of lower margins could be observed especially for products such as ordinary hot rolled coil and other commodity steel.

The Steel Division has responded to this environment by shifting production from ordinary hot rolled steel commodity products into further processed steel products.

## **Special Steel Division**

In the fiscal year 2007/08, voestalpine AG acquired a majority stake in Böhler-Uddeholm AG by way of a voluntary public takeover bid and subsequently took over 100% of Böhler-Uddeholm AG in the fiscal year 2008/09. Böhler-Uddeholm AG was listed on the Vienna Stock Exchange's Official Market (*Amtlicher Handel*) since April 10, 1995, but the company was de-listed with effect of September 5, 2008 as a consequence of the 100% takeover by voestalpine AG. The integration of the Böhler-Uddeholm Group was completed in the fiscal year 2007/08 and Böhler-Uddeholm as of March 31, 2012 forms the third largest Division in terms of sales in the voestalpine Group (Special Steel Division).

With EUR 2,945.0 million revenues and EUR 272.9 million profit (EBIT) in the fiscal year 2011/12, the Division accounted for 23% of the Group's sales revenue. In the fiscal year 2010/11, the Special Steel Division's revenues totaled EUR 2,631.3 million and its profit (EBIT) EUR 208.5 million. The Division is comprised of a leanly staffed holding company based in Vienna and approximately 100 subsidiaries in about 40 countries all over the world. The Special Steel Division operates 10 major production facilities in Europe, the United States and Brazil. Its products are distributed through the Division's own sales and distribution network, which comprises sales locations in roughly 40 countries, and through more than 100 agents worldwide.

Since April 1, 2010, the Special Steel Division operates two business units, which are high performance metals and special forgings. The former precision strip business unit of Böhler-Uddeholm is, since April 1 2010, managed and reported within the Profilform Division (since April 1, 2012 the Metal Forming Division), and the former welding consumables business unit of Böhler-Uddeholm is, since that date, managed and reported within the Metal Engineering Division.

### ***Raw Materials***

The Division's steel-making activities, which in comparison to the steel-making activities of the Steel Division and the Metal Engineering Division are based on electric arc furnaces, consume significant amounts of scrap and alloys, such as molybdenum, vanadium, cobalt, nickel, chrome.

### ***Products and services***

The business unit high performance metals, which in the fiscal year 2011/12 accounts for approximately 92% of the Division's total sales, offers long products (bars, wire, profiles) and flat products (sheets, plates, hot rolled and cold rolled strip) in the main categories tool steel and high-speed steel (both used for the production of tools), valve steel (used in combustion engines), powder metallurgical steel (used both in tool steel and high-speed steel products), special engineering steel (used for products such as heavy duty gearboxes in the power generation industry), special grades steel and nickel based alloys (used for components requiring corrosion resistance, heat resistance and strength at high temperatures, e.g. in the aerospace industry, mechanical engineering for the energy industry, medical applications, the oil and gas industry and the automotive industry).

The business unit special forgings, which in the fiscal year 2011/12 accounts for approximately 8% of the Division's total sales, offers products in the main areas aircraft structural parts and jet engine parts (such as airframe components, wing components and landing gear components for airplanes and parts for helicopters, as well as forged aero engine discs), steam and gas turbine blades for power generation (such as precision forged blades used in stationary steam and gas turbines), power train components for the truck industry and other special forgings (such as drilling components for the mining industry, marine diesel valves used in marine engine construction, forged components for cable cars and high quality niche components for the machinery and plant construction sectors).

## **Customers and markets**

### *Geographic distribution of customers*

More than half of total sales are effected to customers within the European Union (accounting for 56% of total sales in the fiscal year 2011/12; Germany as the single most important market accounts for 24% of total sales), followed by America (23%), Asia (13%), Other Europe (5%), Australia (2%) and Africa (1%).

### *Customers by industry*

The following chart sets forth the breakdown of sales by industry sector for the fiscal years 2011/12 and 2010/11:

Industry Sector	Percentage of total sales <sup>(1)</sup>	
	Year ended March 31 2011/12	2010/11
Automotive .....	27%	26%
White goods/consumer goods .....	12%	13%
Energy industry.....	15%	14%
Civil and mechanical engineering .....	22%	22%
Aviation industry .....	7%	7%
Building & construction subsuppliers .....	4%	5%
Other .....	13%	13%

(1) Source: Unaudited, internal calculations by voestalpine AG.

The high performance metals business unit's most important customers are in the automotive and automotive supplier industries, followed by civil and mechanical engineering. The business unit sells its products through a global network of local distribution companies in about 40 countries and has a highly diversified customer base, with no individual customer accounting for more than 3% of the Division's total sales.

The special forgings business unit's major customers are aircraft manufacturers and their component suppliers, as well as aero engine manufacturers, truck manufacturers and manufacturers of steam and gas turbines. Business is conducted primarily on the basis of long-term agreements under which customers place specific orders as their needs arise.

### **Business environment and competitors**

The major product segments of the Special Steel Division, each represent a highly specialized niche within the special steel industry which differs significantly from the carbon steel industry and other special steel products due to a highly specialized process technology and small production runs. Distribution and services account for a large proportion of the value added.

The market for the Division's tool steel and high speed steel products is global in nature and is characterized by a small number of significant producers. The business unit's principal competitors in the area of tool steel and high-speed steel are the Schmolz + Bickenbach Group, Hitachi, Daido and Eramet. The special forgings business unit faces competition primarily from Lestritz in Germany and the United States, Precision Castparts Corporation, Allegheny Technologies and Shultz Steel Company in the United States, the Hay-Group, CDP Bharat Forge and Mahindra Forging in Germany.

### **Metal Engineering Division (formerly Railway Systems Divisions)**

With EUR 2,955.6 million revenues and EUR 96.9 million profit (EBIT) in the fiscal year 2011/12, the Metal Engineering Division accounted for 24% of the Group's sales revenue. In the fiscal year 2010/11, the Metal Engineering Division generated EUR 2,723.3 million revenues and EUR 308.9 million profit (EBIT).

The Metal Engineering Division mainly produces high-quality long steel products. This comprises the production of railway track material products (rails, turnout systems and related components), wire rod products, seamless tubes for the oil and gas industry and other tube products, welding consumables as well as semi-finished products (blooms and billets) for selected steel processing companies outside the Group.

The Division operates a steel plant, a rail-making facility and a wire production site in Donawitz, Austria, and a seamless tubes production facility in Kindberg, Austria (a 50-50 joint venture with US based National Oilwell Varco). Furthermore the Division owns rail-making and rail-service facilities in Germany and wire drawing facilities in Austria and Germany. In March 2012 the Group decided to close parts of its railway operations in Duisburg, Germany, for economical reasons. The Division's business unit welding consumables operates eleven manufacturing sites, seven in Europe, one in Brazil, one in Mexico, one in Indonesia and one in China.

### ***Raw materials***

The Division's steel-making activities consume significant amounts of iron ore and coal. Its activities also require smaller amounts of various other ferrous and non-ferrous metals and steel scrap for use in the converters. The Division partly sources its raw materials internally.

### ***Products***

The Division produces rails and switches (accounting for 48% of total sales in the fiscal year 2011/12), wire rod and drawn wire (16%), seamless tubes (10%), welding consumables (18%) and to a limited extent semi-finished products (8%).

The Metal Engineering Division's product mix with respect to rails has evolved over time, with an increasing proportion of sales attributable to "premium quality" rails. It also provides product-related added value logistics and services to railway industry customers worldwide, out of a strong European customer base. The product range of the Division's turnout design and manufacturing specialist, the voestalpine VAE Group, includes turnout systems for high-speed train operations, heavy haul operations, light rail systems and tramway and metro operations. voestalpine VAE's product range further includes electro-hydraulic switch setting devices and switch machines for grooved rail turnouts, electronic turnout monitoring systems, track based monitoring systems like infrared operated hot-box and hot wheel detectors and special track solutions like expansion joints for big railway bridges.

The Division's wire rod production includes cold heading steel, ball bearings, spring steel and pre-stressing steel. The welding consumables product range includes covered electrodes, metal inert gas (MIG) and tungsten inert gas (TIG) wire, sub arc wire, strips and fluxes, flux cored wires as well as solders, pastes and fluxes.

The Division's seamless tubes production is focused on finished oil country tubular goods, primarily for use in oil and gas exploration and production. The Division also supplies semi-finished products, such as blooms and billets, to a limited number of customers with demand for high-quality steel, in particular re-rollers in Austria and Germany producing for the automotive or automotive supply industry.

### ***Customers and markets***

#### ***Geographic distribution of customers***

Germany is the Division's single most important market, accounting for 25% of total sales in the fiscal year 2011/12, followed by Austria (12%) and Benelux (7%). Customers in North America generated 13% of total sales, while 23% were accounted for by customers in other European countries, 9% by customers in Asia and 11% by customers in the rest of the world.

## ***Business environment and competitors***

During the last years the railway infrastructure sector was characterized by an economic situation that was generally satisfactory – not least due to accelerated state-sponsored infrastructure programs. However, increasing competition has resulted in price pressure.

The main competitors in the Division's rail business are large rail producers like Arcelor Mittal and Tata Steel, but also smaller suppliers like Lucchini and Moravia Steel. Vossloh-Cogifer, the second largest turnout manufacturer, is the main competitor of the Division's turnout business in Europe and some overseas markets. But competition also is fierce from numerous smaller manufacturers in Europe and competitors in overseas markets from Korea, India and China as well as from big European railway companies, such as German, French, Italian and Swiss railway companies, which still operate their own turnout manufacturing units.

Also in the field of wire rod manufacturing, the Division faces competition from various large European steel makers, such as Arcelor Mittal and Saarstahl in Germany and Lucchini in Italy. The market for seamless tubes is dominated by the Tenaris Group and the Vallourec-Mannesmann Group, which are active world-wide. There is also increasing export competition from Chinese and Russian mills in the commodity seamless pipe market segment. The business unit welding consumables competes with several internationally active companies such as Lincoln, ESAB, Air Liquide and Kobelco; in addition, it faces competition from local suppliers, such as Nippon Steel, Hyundai, Kisweld and Golden Bridge.

## **Profilform Division**

voestalpine's Profilform Division produces light sections, custom-rolled profiles and other steel shapes, welded tubes (hollow sections) and precision strip steel for the construction, civil engineering, automotive, general manufacturing, energy and aerospace industries.

The Division maintains production facilities in a number of European locations (Austria, Belgium, the United Kingdom, the Czech Republic, Germany, France, Sweden and the Netherlands) as well as in the United States, Brazil and Russia. With EUR 1,251.5 million revenues and EUR 126.6 million profit (EBIT) in the fiscal year 2011/12, the Division accounted for 10% of the Group's sales revenue. In the fiscal year 2010/11, the Division's revenues totaled EUR 1,139.3 million and its profit (EBIT) EUR 118.0 million. As of April 1, 2012, the Profilform and the Automotive Divisions were combined to form a new division called Metal Forming.

## **Products**

The Profilform Division comprises three business units. The business unit tubes and sections, which accounts for approximately 68% of the Division's sales in the fiscal year 2011/12, produces welded

tubes and hollow sections, open standard sections and all types of custom-roll forming of special tubes and sections. The business unit provides pre-finished products ranging from individual components, including pre-punched, pre-coated, laser-cut and bended products, to complete systems, such as ready-to-assemble kits for truck cabins. The second business unit storage equipment accounts for roughly 12% of the Divisions' sales in the fiscal year 2011/12 and manufactures high-bay racking systems and components for road safety, such as guard rails. The third business unit precision strip, accounts for approximately 20% of the Divisions' sales in the fiscal year 2011/12 and produces a wide range of precision hot and cold rolled strip steel, which is partly processed into, amongst others, bimetal strip steel and saw steel, rule die steel and cutting and creasing rules.

### ***Customers and markets***

The Profilform Division has long-standing relationships with many key customers enabling it to focus on the more profitable specialty steel products that require a close working relationship with end users.

#### *Geographic distribution of customers*

The companies in the Profilform Division largely deliver to customers within their own geographic regions, since transport costs make it less competitive to ship products at very long distances. Since each of the Division's companies serves a predominantly local market, the geographic distribution of sales is aligned with the relative sizes of the Division's production facilities. In the fiscal year 2011/12, 72% of total sales were to customers in the European Union, thereof 24% in Germany, 10% in France, 9% in Great Britain and 7% in Austria, while 10% of total sales were generated in North America, 7% in Brazil and 11% in the rest of the world.

### ***Business environment and competitors***

The roll forming and steel shape production industry is generally made up of medium and small companies operating in local or regional markets. The Division's operating structure also features mostly smaller, operationally independent companies, however, these companies are connected, through the Division, both to each other and to the larger voestalpine Group.

The Division's roll-forming operations face competition in the European market from small, family-owned companies, as well as from a few larger companies including Welser in Austria and Germany. The competitive environment is regional and fragmented. However, there are signs of consolidation among the Division's European competitors, particularly in the German market. The Division's roll-forming operations in the United States and South-America face a similar competitive environment, characterized by a high degree of fragmentation and small, regional competitors. Competition with respect to welded tubes is also primarily regional, reflecting the importance of transport costs. The market for standard grade welded tubes in Europe is dominated by large bulk steel producers, such as Tata Steel, and a few smaller steel processors. With regard to special grade welded

tubes, the Division competes primarily with small and mid-sized firms. The business unit storage equipment mainly faces competition from SSI Schäfer, Kocher Regalbau and Mecalux. The business unit precision strip mainly faces competition from Sandvik, Hitachi, Theiss, JB Lees and Ergste.

## **Automotive Division**

The Automotive Division is a good example of voestalpine's strategy of downstream expansion into more value-added steel processing activities. The activities of the Division involve the processing of steel and other materials into automotive industry components and modules, in particular automotive upper-body structures ("body-in-white"), structural parts, safety technology, precision tubes and tailored laser-welded blanks. With EUR 1,224.6 million revenues and EUR 58.5 million profit (EBIT) in the fiscal year 2011/12, the Division accounted for 10% of the Group's sales revenue. In the fiscal year 2010/11, the Division's revenues totaled EUR 1,040.1 million and its profit (EBIT) EUR 64.0 million.

The Division's facilities for manufacturing and processing auto parts are largely concentrated in Europe. As of April 1, 2012, the Profilform and the Automotive Divisions were combined to form a new division called Metal Forming.

### **Products**

The Automotive Division develops and produces laser welded blanks for the automotive sector, body-in-white parts, including structural parts (with a focus on highest-quality, complex formed sheet parts made of steel but also of alternative materials such as plastic or aluminium, the vehicle safety and the engine environment) as well as precision parts and safety parts (including components for axles, anti-shock pads, pneumatic suspension systems and components for air-bag systems and safety belt mechanisms).

### **Customers and markets**

#### *Geographic distribution of customers*

Germany is the Division's single most important market, accounting for 58% of total sales in the fiscal year 2011/12, followed by Benelux (7%) and France (6%). 25% of sales were generated through customers in other European countries and only 4% outside of Europe.

#### *Customers by industry*

The Automotive Division's products are mainly sold to costumers of the automotive industry, accounting for 83% of the sales in the fiscal year 2011/12.

The following chart sets forth a breakdown of the Automotive Division's sales by industry sector for the fiscal years 2011/12 and 2010/11:

Industry Sector	Percentage of total sales <sup>(1)</sup>

Automotive.....	83%	81%
Energy industry .....	10%	11%

Civil and mechanical engineering.....	3%	3%
White goods/consumer goods.....	1%	1%

## ***Business environment and competitors***

The auto parts supply industry in Europe is characterized by a small number of globally active companies and a large number of small and middle-sized businesses, often family-owned, providing products primarily to local markets.

The main competitors of the Division's laser welded blanks business are ArcelorMittal, Gestamp, Salzgitter and ThyssenKrupp. In the field of body-in-white- and structure-parts the Division faces competition from Gestamp, Magnetto, Magna, Kirchhoff, Läpple, Benteler, Tower Automotive and Gedia. Salzgitter, Benteler and Tenaris are the main competitors of the Division with respect to precision parts and safety components.

## **New products and activities**

The focus of the Group's R&D are product and materials solutions for applications in the mobility and energy sectors to develop complete solutions for customer benefit while reducing life cycle costs. One recent innovation presented to the broad professional community in spring 2012 that has resulted from R&D work is the press hardening steel ultraform technology used primarily for safety-relevant automobile components that are lightweight but also extremely high-strength, offering cathodic corrosion protection and providing the possibility of processing blanks with various combinations of strength and thicknesses, thus making a contribution to lightweight automobile construction suited also for applications in electric mobility.

## **Investments**

Investments by voestalpine amounted to EUR 575 million in the fiscal year 2011/12 and EUR 423 million in the fiscal year 2010/11. This significant increase was primarily due to particularly low investments in the financial years 2010/11 and 2009/10 (EUR 543 million) in light of the global financial and economic crisis.

The Group expects its investments in tangible assets to increase further to more than EUR 700 million in each of the financial years 2012/13 and 2013/14 in line with its mid-term investment plan, according to which annual investments are expected to decrease slightly in 2014/15 compared to the financial years 2012/13 and 2013/14.

Investments on which the management has already made firm commitments include, among others, the project "Linz 2020" (pulverized coal injection blast furnace, modernization of the cold rolling mill 2 etc.) in the Steel Division, the modernization of a steel mill in the Special Steel Division and a wire rolling mill in the Metal Engineering Division. The Group intends to finance these and other future investments by the cash flow generated from the Group's operations, liquid funds as well as available debt instruments.

## **Legal proceedings**

The voestalpine Group is from time to time involved in litigation and proceedings relating to its operations. However, the voestalpine Group is not and has not been party to any governmental, legal or arbitration proceedings that may have or have had during the 12 months preceding the date of the Prospectus, a material adverse effect on the business or financial condition of the voestalpine Group, nor, so far as management is aware, are any such proceedings threatened or pending.

In connection with an investigation of the market for prestressing steel, voestalpine AG and its fully owned subsidiary voestalpine Austria Draht GmbH, among other companies included in the investigation, were sentenced by the European Commission for anti-competitive behavior. The decision imposed a joint fine of EUR 22 Mio on voestalpine AG and voestalpine Austria Draht GmbH. voestalpine has filed a complaint against the European Commission's decision. In this complaint voestalpine applied to nullify the Commissions decision for a number of reasons. A decision by the European Court is not expected before the end of the calendar year 2012.

After internal investigations within voestalpine's railway operations in Germany, the Company made an application under the German leniency scheme in spring 2011. As a result of this application, German authorities initiated cartel investigations against the involved Group members in Germany and against the other involved entities. The outcome of the proceedings is still uncertain and first results are expected for the second half of 2012. Moreover, voestalpine decided in March 2012 to close the respective railway operations in Germany for economical reasons. To cover expenses in connection with this closure and to cover potential fines and damage claims with regard to the cartel proceedings in Germany, the Group in the fiscal year 2011/12 formed provisions at an amount of EUR 205 million.

## **Material contracts**

### ***Material financing contracts***

In connection with the long-term financing of the public takeover of Böhler-Uddeholm AG, the Company in October 2007 issued subordinated perpetual fixed to floating rate callable bonds in the aggregate principal amount of EUR 1 billion (the "**Hybrid Bonds**"). In 2008 the Company entered into long-term financing agreements with national and international credit institutions in total amount of EUR 2.1 billion of which EUR 600 million are still outstanding. In March 2009 the Company issued EUR 400 million fixed-interest bonds (the "**Fixed-Interest Bonds 2009**"). In January 2011, the Company issued EUR 500 million fixed-interest bonds (the "**Fixed-Interest Bonds 2011**").

In November 2011, the Group entered into a syndicated loan of EUR 800 million in two tranches of EUR 400 million, each with a maturity of five years, issued by a consortium of 11 banks. The first tranche will safeguard liquidity needs for investments and repayments during the fiscal year 2012/13. The second tranche is a purely precautionary measure. The consortium was lead by UniCredit Bank Austria AG and Crédit Agricole Corporate & Investment Bank.

In May, 2012, voestalpine raised EUR 400 million by a placement of Schuldschein loans in fixed and variable interest tranches in three, five and seven years (see "*-Recent Developments*").

The Hybrid Bonds, the Fixed-Interest Bonds 2009 and 2011 as well as the other long-term financing agreements mentioned above contain, inter alia, change of control clauses, according to which the Company is entitled to call and redeem the Hybrid Bonds upon a change in control of the Company whereas with regard to the Fixed-Interest Bonds 2009 and 2011 and the other long-term financing agreements, the bondholders/lenders are entitled to demand redemption of their bonds/loans in case of a change in control of the Company. According to the relevant terms and conditions and financing agreements the control of the Company changes when a controlling interest within the meaning of the Austrian Takeover Act (*Übernahmegesetz*) is acquired.

## **Recent developments and outlook**

With regard to the squeeze-out of minority shareholders of Böhler-Uddeholm AG according to the Austrian Minority Shareholder Squeeze-Out Act (*Gesellschafterausschlussgesetz*) each minority shareholder has the right to request judicial appraisal of the adequacy of the cash settlement offered. Several such applications had been submitted and therefore judicial appraisal proceedings were initiated at the competent court in Vienna. In November 2011, a settlement was concluded. In accordance with this settlement the Company is obliged to pay supplementary payments in the amount of EUR 6.50 per share and to pay interest since June 24, 2008 until the date of payment. Additionally, the Company is obliged to bear the applicant's costs for the proceeding and lawyers. The settlement was judicially approved by the competent court at May 3, 2012 and the supplementary amount including interest was paid thereafter.

In May, 2012, voestalpine raised EUR 400 million by a placement of Schuldschein loans in fixed and variable interest tranches in three, five and seven years, arranged by Bayerische Landesbank, Landesbank Baden-Württemberg, Raiffeisenlandesbank Niederösterreich-Wien and Raiffeisenlandesbank Oberösterreich.

**Outlook:** Up to the third calendar quarter 2011, the global economy was characterized by a broad-based upwards trend with some countries in Southern Europe, the countries in North Africa and parts of the Middle East excluded from this trend. Toward the end of the year the economic situation became regionally differentiated. While North America and the markets in Northern and Western Europe continued to be relatively stable, the situation in the southern parts of Europe became increasingly critical. Recessionary trends in Europe resulting from escalation of the debt crisis resulted in increased uncertainty about the continued recovery of the global markets. Comparatively favourable economic figures in the U.S. and in Japan could not change the overall economic picture.

The challenging macroeconomic climate increasingly influenced the real economy. The construction and construction supply industries have not returned to their pre-crisis levels and parts of the automobile industry and of the energy sector have begun to suffer from a growing weakness in demand. Satisfactory developments of the mechanical engineering sector, the aviation industry and railway infrastructure could compensate the negative impact on the other sectors. The European steel industry which is characterized by structural overcapacity is unlikely to achieve the anticipated recovery in 2012. Underutilization of capacity in Europe, especially in the ordinary steel industry, combined with volatile raw materials prices (trending downward) is resulting in destructive price wars.

Despite this backdrop the Group's downstream strategy should allow to attain an operating result that is at about last year's level (without one-off effects). The Group's three processing divisions are generating two thirds of the Group's revenue and in the past their stable operating results largely compensated the volatility of the Steel Division, transforming the Group from a steel corporation to a processing and technology corporation. Nevertheless the development during the rest of the year will continue to be driven by the familiar macroeconomic topics of debt crisis, capital market volatility and financial markets scepticism.

### **Material adverse changes and trend information**

There has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements as of March 31, 2012. The Issuer is, save as disclosed under the heading "*Recent Developments*" above, not aware of any information on any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the Issuer's prospects for at least the current fiscal year.

## MANAGEMENT

The Company has a two-tier management structure, consisting of a Management Board (*Vorstand*) and a Supervisory Board (*Aufsichtsrat*). The business address for each of the members of the Management Board and the Supervisory Board is voestalpine-Straße 1, 4020 Linz, Austria.

### **Management Board (*Vorstand*)**

### **Supervisory Board (*Aufsichtsrat*)**

The Supervisory Board is vested with the authority to appoint and remove the members of the Management Board and to supervise the business conducted by the Management Board and the general affairs of the Company. Although the Supervisory Board does not actively manage the Company, both the Austrian Stock Corporation Act (*Aktiengesetz*) and the Company's Articles of Association require the consent of the Supervisory Board before the Management Board takes certain actions.

The Articles of Association require that the Supervisory Board consists of not less than three and not more than eight members elected at the shareholders' meeting, as well as members appointed by voestalpine Group's works councils under mandatory provisions of the Austrian Labor Constitutional Act (*Arbeitsverfassungsgesetz*). No elected member of the Supervisory Board may be appointed for a longer period than until the annual shareholders' meeting deciding on the discharge of the board members for the fourth fiscal year following the fiscal year of their appointment.

According to the Company's Articles of Association the Supervisory Board has set up an Audit Committee (*Prüfungsausschuss*), which consists of the Chairman of the Supervisory Board Mr. Lemppenau, the Vice-Chairman of the Supervisory Board, Mr. Scharinger and the members of the Supervisory Board Mr. Gasselsberger, Mr. Krenner, Mr. Schaller and Mr. Sulzbacher. Mr. Schaller. However, in its function for remuneration matters with respect to the members of the Management Board, members of the works councils are not represented and thus in respect of remuneration matters the committee consists of the Chairman of the Supervisory Board, Mr. Lemppenau, and the Vice-chairman of the Supervisory Board, Mr. Scharinger. ## Austrian Corporate Governance Code

The Austrian Code of Corporate Governance (the “**Code**”) was published by the Austrian Working Group on Corporate Governance, a Group of private organisations and individuals, in 2002. This voluntary self-regulatory initiative is designed to reinforce the confidence of investors by improving reporting transparency, and the quality of cooperation between supervisory board, managing board and shareholders, to provide for accountability and promote sustainable, long-term value.

The Code primarily applies to Austrian stock market-listed companies that undertake to adhere to its principles. The Code is based on statutory provisions of Austrian corporate law, securities law and capital markets law (“**Legal Requirements**”, “**L Rules**”). In addition, the Code contains rules considered to be a part of common international practice, such as the principles set out in the OECD Principles of Corporate Governance. Non-compliance with some of these rules must be explained at the

shareholders' meeting ("Comply or Explain", "C Rules"). However, the Code also contains rules that are voluntary and do not require explanation in the case of deviations (recommendations, "R Rules"). Overall, successful implementation of the Code depends on self-regulation by companies. The Code was amended most recently in January 2012.

voestalpine AG resolved in 2003 its support for the Austrian Corporate Governance Code and currently commits the observance of the mandatory L Rules, all C Rules as well as all R Rules of the Austrian Corporate Governance Code as amended in January 2012.

## TAXATION

### Taxation in Austria

The following is a brief summary of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors should consult their own professional advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

This summary is based on Austrian law as in force when drawing up this Prospectus. The laws and their interpretation by the tax authorities may change and such changes may also have retroactive effect. It cannot be ruled out that the Austrian tax authorities adopt a view different from that outlined below. This summary is based on the assumption that the Notes are offered to the public.

#### **Austrian residents**

Income from the Notes derived by individuals, whose domicile or habitual abode is in Austria, is subject to Austrian income tax pursuant to the provisions of the Austrian Income Tax Act (*Einkommensteuergesetz*).

Interest income from the Notes is subject to a special income tax rate of 25%. If the interest is paid out to the Noteholder by an Austrian paying agent (Austrian bank or branch of foreign bank or investment firm), the interest income from the Notes is subject to Austrian withholding tax (*Kapitalertragssteuer*) at a rate of 25%, which is withheld by the paying agent (*auszahlende Stelle*). The income tax for interest income generally constitutes a final taxation (*Endbesteuerung*) for individuals, irrespectively whether the Notes are held as private assets or as business assets. If the interest income is not subject to Austrian withholding tax because there is no domestic paying agent, the taxpayer will have to include the interest income derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Furthermore, any realized capital gain (*Einkünfte aus realisierten Wertsteigerungen*) from the Notes is subject to Austrian income tax at a rate of 25%. Realized capital gain means any income derived from the sale or redemption of the Notes. The tax base is, in general, the difference between the sale proceeds or the redemption amount and the acquisition costs, in each case including accrued interest. Expenses which are directly connected with income subject to the special tax rate of 25% are not deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. For the calculation of the acquisition costs of Notes held within the same securities account and having the same securities identification number but which are acquired at different points in time, an average price shall apply.

Where an Austrian securities depository (*depotführende Stelle*) or paying agent is involved and pays out or settles the capital gain, also any realized capital gain from the Notes is subject to a 25% withholding tax. The 25% withholding tax deduction will result in final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities depository. If the realized capital gain is not subject to Austrian withholding tax because there is no domestic securities depository or paying agent, the taxpayer will also have to include the realized capital gain derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Withdrawals (*Entnahmen*) and other transfers of Notes from the securities account will be treated as disposals (sales), unless specified exemptions will be fulfilled like the transfer of the Notes to a securities account owned by the same taxpayer (i) with the same Austrian securities depository (bank), (ii) with another Austrian bank if the account holder has instructed the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder has instructed the transferring bank to transmit the pertaining information to the competent tax office or has,

in the case of transfers from a foreign account, himself notified the competent Austrian tax office within a month; or like the transfer without consideration to a securities account held by another taxpayer, if the fact that the transfer has been made without consideration has been evidenced to the bank or the bank has been instructed to inform the Austrian tax office thereof or if the taxpayer has himself notified the competent Austrian tax office within a month. Special rules apply if a taxpayer transfers his residence outside of Austria or Austria loses for other reasons its taxation right in respect of the Notes to other countries (which gives rise to a deemed capital gain and exit taxation with the option for deferred taxation in the case of a transfer to an EU member state or certain member states of the European Economic Area).

Taxpayers, whose regular personal income tax is lower than 25% may opt for taxation of the income derived from the Notes at the regular personal income tax rate. Any tax withheld will then be credited against the income tax. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in direct economical connection with such income are also not deductible if the option for taxation at the regular personal income tax rate is made.

Income from Notes which are not offered to the public within the meaning of the Austrian Income Tax Act would not be subject to withholding tax and final taxation but subject to normal progressive personal income tax rates.

Losses from Notes held as private assets may only be set off with other investment income subject to the special 25% tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be set off with any other income. The Austrian Budget Implementation Act 2012 provides for a mandatory set-off of losses applied as of January 1, 2013 by the Austrian securities depository to investment income from securities accounts at the same securities depository (subject to certain exemptions). Also losses incurred between April 1, 2012 and December 31, 2012 will be set off by April 30, 2013 by the Austrian securities depository. However, a carry-forward of such losses is not permitted.

Income including capital gain derived from the Notes which are held as business assets are also subject to the special income tax rate of 25% deducted by way of the withholding tax. However, realized capital gains, contrary to interest income, have to be included in the tax return and must not be a main focus of the taxpayer's business activity. Write-downs and losses derived from the sale or redemption of Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments and only half of the remaining loss may be set off or carried forward against any other income.

Income including capital gains from the Notes derived by corporate Noteholders, whose seat or place of management is based in Austria, is subject to Austrian corporate income tax pursuant to the provisions of the Austrian Corporate Income Tax Act (*Körperschaftssteuergesetz*). Corporate Noteholders deriving business income from the Notes may avoid the application of Austrian withholding tax by filing a declaration of exemption (*Befreiungserklärung*). There is, *inter alia*, a special tax regime for private foundations established under Austrian law (*Privatstiftungen*) (interim tax, no withholding tax).

The Issuer does not assume responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

### **Non-Residents**

Income including capital gains derived from the Notes by individuals who do not have a domicile or their habitual abode in Austria or by corporate investors who do not have their corporate seat or their place of management in Austria (“**non-residents**”) is not taxable in Austria provided that the income is not attributable to an Austrian permanent establishment (for withholding tax under the EU Savings Directive see below).

Thus, non-resident Noteholders – in case they receive income or capital gains from the Notes through a

securities depository or paying agent located in Austria – may avoid the application of Austrian withholding tax if they evidence their non resident-status vis-à-vis the paying agent by disclosing their identity and address pursuant to the provisions of the Austrian income tax guidelines. The provision of evidence that the Noteholder is not subject to Austrian withholding tax is the responsibility of the Noteholder.

If any Austrian withholding tax is deducted by the securities depository or paying agent, the tax withheld shall be refunded to the non-resident Noteholder upon his application which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax.

Where non-residents receive income from the Notes as part of business income taxable in Austria (e.g. permanent establishment), they will, in general, be subject to the same tax treatment as resident investors.

### ***EU Savings Directive***

The EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (“**Savings Directive**”) provides for an exchange of information between the authorities of EU member states regarding interest payments made in one member state to beneficial owners who are individuals and resident for tax purposes in another member state.

Austria has implemented the Savings Directive by way of the EU Withholding Tax Act (*EU-Quellensteuergesetz*) which provides for a withholding tax rather than for an exchange of information. Such EU withholding tax is levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual resident for tax purposes in another member state of the European Union or certain dependent and associated territories. The EU withholding tax currently amounts to 35%.

No EU withholding tax is deducted if the EU-resident Noteholder provides the paying agent with a certificate drawn up in his name by the tax office of his member state of residence. Such certificate has to indicate, among other things, the name and address of the paying agent as well as the bank account number of the Noteholder or the identification of the Notes (section 10 EU Withholding Tax Act).

The Issuer does not assume responsibility for EU withholding tax at source and is not obliged to make additional payments in case of withholding tax deductions at source.

The European Commission has proposed certain amendments to the Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

### ***Other Taxes***

There should be no transfer tax, registration tax or similar tax payable in Austria by Noteholders as a consequence of the acquisition, ownership, disposition or redemption of the Notes. The Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) was abolished with effect as of August 1, 2008. However, gifts from or to Austrian residents have to be notified to the tax authorities within a three-month notification period. There are certain exemptions from such notification obligation, e.g. for gifts among relatives that do not exceed an aggregate amount of EUR 50,000 per year or gifts among unrelated persons that do not exceed an aggregate amount of EUR 15,000 within five years.

### **Taxation in Luxembourg**

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax

law, to which they may be subject.

### ***Withholding tax and self-applied tax***

#### *Non-resident holders of Notes*

Under Luxembourg general tax laws currently in force and subject to the laws of June 21, 2005 (the “**Laws**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

Under the Laws implementing the Savings Directive and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU member states (the “**Territories**”), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which is a resident of, or established in, an EU member state (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or has provided a tax certificate issued by the fiscal authorities of his/her/its country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 35%. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Laws would at present be subject to withholding tax of 35%.

#### *Resident holders of Notes*

Under Luxembourg general tax laws currently in force and subject to the law of December 23, 2005 as amended (the “**Law**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is a resident of Luxembourg or a residual entity that secures interest payments on behalf of such individuals (unless such entity has opted to be treated as UCITS recognized in accordance with the Council Directive 85/611/EEC, as replaced by the European Council Directive 2009/65/EC, or for the exchange of information regime) will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her/its private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Law would be subject to withholding tax of 10%.

Pursuant to the Luxembourg law of December 23, 2005 as amended by the law of July 17, 2008, Luxembourg resident individuals, acting in the course of their private wealth, can opt to self-declare and pay a 10% tax on interest payments made after December 31, 2007 by paying agents (defined in the same way as in the Savings Directive) located in an EU member state other than Luxembourg, a member state of the European Economic Area other than an EU member state or in one of the Territories.

### **Taxation in Germany**

The following discussion of the tax consequences of an investment in the Notes is based on the laws in force in the Federal Republic of Germany (“**Germany**”) on the date of this Prospectus. The Issuer emphasizes that the tax implications can be subject to change due to future law changes.

Although this discussion of the tax implications of an investment in the Notes reflects the Issuer's opinion, it should not be construed as tax advice or misunderstood as a guarantee in an area of law which is not free from doubt. Further, this discussion is not intended as the sole basis for an investment in the Notes as the individual tax position of the investor needs to be investigated. Therefore, this statement is confined to a general discussion of certain German tax consequences. Members of a church may – in addition to the taxes discussed below – also be subject to church tax. **Prospective holders should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Notes, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Germany.**

## **Investors resident in Germany**

### *Private investors*

Any current interest payments from the Notes qualify as investment income pursuant to section 20 paragraph 1 no. 7 of the German Income Tax Act (*Einkommensteuergesetz, EStG*) and are subject to flat income tax (*Abgeltungsteuer*) plus solidarity surcharge (and eventually church tax, if applicable) provided that the investor is an individual tax resident in Germany holding the Notes as private investment assets. Accrued interest paid upon purchase of the Notes qualifies as negative investment income.

If the Notes are held in custody with or administered by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank, current interest payments are subject to a tax at a rate of 25% (plus solidarity surcharge). The Issuer of the Notes is not obliged under German law to withhold any withholding tax (*Quellensteuer*) from the interest payments. The withholding tax is definitive (flat tax; *Abgeltungsteuer*). Investors having a lower personal income tax rate may include the capital investment income in their personal income tax return to achieve a lower tax rate. Income not subject to a definitive withholding tax (e.g. since there is no German custodian institution) will be subject to the flat tax rate of 25% (plus solidarity surcharge) upon assessment.

Capital gains from the sale or redemption of the Notes (including accrued interest, i.e. interest accrued up to the sale of the Notes) qualify as investment income pursuant to section 20 paragraph 2 no. 7 EStG and are subject to personal income tax plus solidarity surcharge. Losses from the sale or redemption of the Notes can only be off-set against other investment income (and eventually church tax, if applicable). In the event that an off-set is not possible in the assessment period in which the losses have been realized, such losses can be carried forward into future assessment periods only and can be off-set against investment income generated in future assessment periods.

If the Investor has acquired Notes at different points in time, the Notes acquired first are deemed to be disposed of first.

If the Notes are held in custody with or administered by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank, a tax at a rate of 25% (plus solidarity surcharge thereon) is withheld by such institution upon sale or redemption of the Notes. The withholding tax is imposed on the excess of the proceeds from the sale or redemption over the purchase price paid for the Notes, if the Notes were held in custody by such institution since their acquisition. If custody has changed since the acquisition and the acquisition date is not proved, the tax at a rate of 25% (plus solidarity surcharge) will be imposed on an amount equal to 30% of the proceeds from the sale or redemption of the Notes. The withholding tax is definitive (flat tax; *Abgeltungsteuer*). Investors having a lower personal income tax rate may include the capital investment income in their personal income tax return to achieve a lower tax rate. Income not subject to a definitive withholding tax (e.g. since there is no German custodian institution) will be subject to a special tax rate of 25% (plus solidarity surcharge) upon assessment.

### *Business investors*

If the Notes are held as business assets any current interest payments from the Notes qualify as business income and are subject to personal or corporate income tax plus solidarity surcharge. Further, such interest payments are recognized for trade tax purposes.

The procedure of the withholding tax deduction on interest payments is similar to the procedure outlined above for private investors and the Issuer of the Notes is not obliged under German law to withhold any withholding tax (*Quellensteuer*) from the interest payments. Any withholding tax withheld is credited against the investor's personal or corporate income tax liability in the course of the tax assessment procedure. Any potential surplus for the benefit of the investor will be paid out to the investor.

If the Notes are held as business assets capital gains and losses from the sale or redemption of the Notes qualify as business income and are subject to personal or corporate income tax plus solidarity surcharge. Losses are fully deductible when realized or, as the case may be, when a write-down to the lower fair value (*Teilwertabschreibung*) is made as a result of a permanent decrease in value. Further, such gains and losses are recognized for trade tax purposes.

No withholding tax deduction applies for capital gains from the sale or redemption of the Notes where the Notes are held by a corporation or where the capital gains constitute domestic business income provided the investor satisfies certain procedural requirements with the disbursing agent.

### **Investors not resident in Germany**

Investors not resident in Germany are not taxable in Germany and no withholding tax on interest is withheld (even if the Notes are held in custody with a German credit institution or financial services institution). Exceptions apply e.g. when the Notes are held as business assets in a German permanent establishment of the investor.

### **EU Directive on the Taxation of Savings Income**

On June 3, 2003, the EU Council of Economic and Finance Ministers adopted a new directive regarding the taxation of savings income (2003/48/EG). The directive has been implemented in Germany by the decree on the taxation of interest income (*Zinsinformationsverordnung*) which applies from July 1, 2005 on. Under the directive, each Member State is required to provide the tax authorities of another Member State with details of interest payments paid by a person within its jurisdiction to an individual resident in that other Member State. Austria and Luxembourg may instead apply a withholding system for a transitional period in relation to such payments, deducting tax at rates rising over time to 35%.

## SUBSCRIPTION AND SELLING RESTRICTIONS

### **Underwriting**

The Notes may be issued on a continuing basis and underwritten by one or more of the Dealers appointed under the Programme Agreement (as defined below) from time to time by the Issuer. Notes may be distributed by way of public offers or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be specified in the applicable Final Terms.

Notes may be sold from time to time by the Issuer to any one or more of the Dealers. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in the Programme Agreement (the “**Programme Agreement**”). The Programme Agreement provides, inter alia, for the appointment of Dealers. A Subscription Agreement (a form of which is set out in the Programme Agreement) will be concluded in connection with each issuance of Notes under the Programme (each a “**Subscription Agreement**”). The Subscription Agreement will typically be dated on or about the date of the applicable Final Terms and provides, inter alia, for the form and terms and conditions of the Notes, the price at which such Notes will be purchased by the Dealer(s) and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase.

### **General**

Each Dealer will represent, warrant and undertake that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes the Prospectus or any related offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither any of the Issuer nor any other Dealer shall have any responsibility therefor. With regard to each Tranche, the relevant Dealer will be required to comply with such other additional restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the Final Terms.

### **European Economic Area**

#### *Public Offer Selling Restriction under the Prospectus Directive*

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has to represent and agree that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus to the public in that Relevant Member State other than the offers contemplated in this Prospectus in Austria and Germany, from the date falling one business day after the Prospectus has been approved by the competent authority in Luxembourg, notified to the relevant competent authority and published in accordance with the Prospectus Directive as implemented in Austria and Germany until the end of the public offer period, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State:

- (a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than EUR 43,000,000; and (3) an annual net turnover of more than EUR 50,000,000, as shown in its last annual or consolidated accounts;
- (c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the

Prospectus Directive); or

- (d) in any other circumstances falling within Article 3 (2) of the Prospectus Directive,

provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC and, for the purposes of this section, includes any relevant implementing measure in each Relevant Member State.

## **United States**

The Notes have not been and will not be registered under the Securities Act. The Notes may be subject to certain requirements under U.S. tax law. The Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S and the Internal Revenue Code, and regulations thereunder.

Each Dealer has agreed that it will not offer or sell the Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the completion of the distribution of an identifiable Tranche of which such Notes are a part, as determined and certified to the Paying Agent by such Dealer (or, in the case of an identifiable Tranche of Notes sold to or through more than one Dealer, by each of such Dealers with respect to Notes of an identifiable Tranche purchased by or through it, in which case the Paying Agent shall notify such Dealer when all such Dealers have so certified), within the United States or to, or for the account or benefit of, U.S. persons and that it will have sent to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S.

In addition, until 40 days after the commencement of the offering of any identifiable Tranche of Notes, an offer or sale of Notes within the United States by any dealer that is not participating in the offering may violate the registration requirements of the Securities Act.

## **United Kingdom**

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent warrant and agree, that:

- (a) (i) in relation to any Notes having a maturity of less than one year, it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act (“**FSMA**”) by the Company;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any

Notes in circumstances in which section 21 (1) of the FSMA does not apply to the Issuer or any of the Guarantors; and

- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.
